

Lisa is a graduate of North Royalton High School in Ohio and an incoming freshman at The Ohio State University, Columbus, Ohio with plans of a degree in mechanical engineering. Her interest in the automotive industry was sparked after attending a STEM fair hosted by Goodyear. Lisa aspires to design vehicles which are safe, efficient, affordable and technologically advanced for a cross section of income levels. By the way, she was awarded the Goodyear STEM Career Fair scholarship.

Lisa was first in her high school class and National Honor Society president, National French Honor Society vice president, National Merit Semi-Finalist, Outstanding Senior in English, worked as an elementary student tutor, apple sorter at a local apple orchard, restaurant server and volunteered in many community activities. Lisa's hometown is North Royalton, Ohio. The scholarship was sponsored by Ricardo Inc.
