

Compare Fractions using Strategies 2 (Using benchmark)

- ☐ Check your numerators
- ☐ Check your denominators
- ☐ Is it more or less than $\frac{1}{2}$?

Compare using <, =, >.	Which strategy did you use?	Explain your work
$\frac{3}{9}$ $\frac{3}{5}$	☐ Denominators the same, compare numerators ☐ Numerators the same, compare denominators ☐ Use a benchmark of $\frac{1}{2}$	
$\frac{3}{7}$ $\frac{2}{6}$	☐ Denominators the same, compare numerators ☐ Numerators the same, compare denominators ☐ Use a benchmark of $\frac{1}{2}$	
$\frac{3}{7}$ $\frac{5}{7}$	☐ Denominators the same, compare numerators ☐ Numerators the same, compare denominators ☐ Use a benchmark of $\frac{1}{2}$	
$\frac{3}{8}$ $\frac{2}{4}$	☐ Denominators the same, compare numerators ☐ Numerators the same, compare denominators ☐ Use a benchmark of $\frac{1}{2}$	
$\frac{3}{10}$ $\frac{5}{6}$	☐ Denominators the same, compare numerators ☐ Numerators the same, compare denominators ☐ Use a benchmark of $\frac{1}{2}$
