## **PART-3**

## **ENGLISH**

### **Questions 21 to 50**

**Questions 21 to 30.Read the following passage and answer the questions from the options given**

### **Materials**

**A material is what something is made of .There are five basic materials.Most things are made with these materials.Some things are made of metal,some are made of glass.Some are made of wood,some**

THANKS FOR YOUR SUPPORT.VISIT [WWW.EXAMCHOICES.IN](http://WWW.EXAMCHOICES.IN)

are of cloth and some others are of plastic. There are some other materials. But they are not used as much as these five materials

Let's talk about metal first. Metal is very heavy and it is very hard and strong. It usually feels cool if you touch it. We use metal to make a lot of things. We use it for making forks, knives, keys and cars. We use it for these things because it is very strong.

Next, Let's talk about glass. Glass is very smooth. It feels cool to touch. It is not as heavy as metal. It is hard. But it is not strong. It breaks very easily! Then why do we use it? We use it because it is very clear! You can see through glass! That's why we use it for windows. That's also why we use it for glasses.

Now, let's talk about wood. Wood is lighter than metal and glass. It is not as strong as metal. But it is much stronger than glass. We use wood to make a number of things. Things made of wood are usually light, hard and strong. Chairs and tables are made of wood. Pencils are made from wood.

Now, let's talk about cloth. Cloth is very light. It is much lighter than wood and it is very soft. We use cloth to make a lot of things. For example, it is used to make clothing and it is used to make blankets,

Last, let's talk about plastic. Plastic is also very light. But it is different from cloth. Sometimes it is soft and sometimes it is hard. Plastic can be used to make thin plastic bags. These are light, soft and strong. But plastic can also be used to make bicycle helmets. These are light, hard and strong. A helmet and a bag seem different. But they are both made from plastic
