

Trigger Maschine Kit Samples with Novation Launchkey Mini Mk3 Pads (Quick and Dirty Method)

1. After connecting your Launchkey Mini Mk3, go to the Maschine software Preferences window, and under MIDI, check the box for Launchkey Mini Mk3 (MIDI port). From the Maschine Library tab, load a Maschine Kit of your choice.

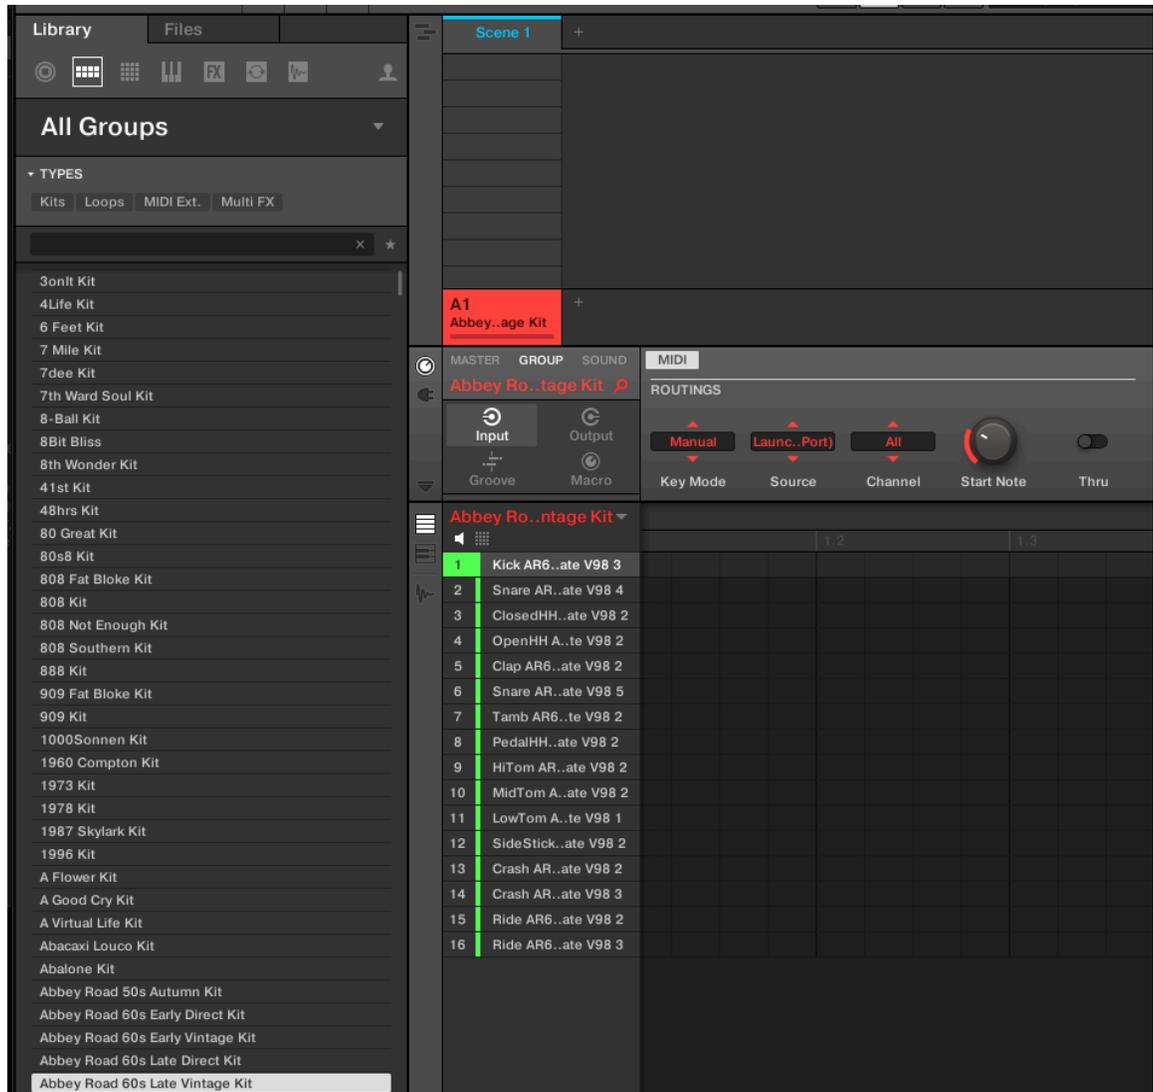

Figure 1 – Group arrange window view

2. In the Arrange Window area, click on the MIDI routing button, click on “Group” to highlight it, then click on the Input button.

Figure 2 – Group section settings

3. For the MIDI routing section, use the up/down arrows to choose the settings shown below (also shown above in Fig.1)

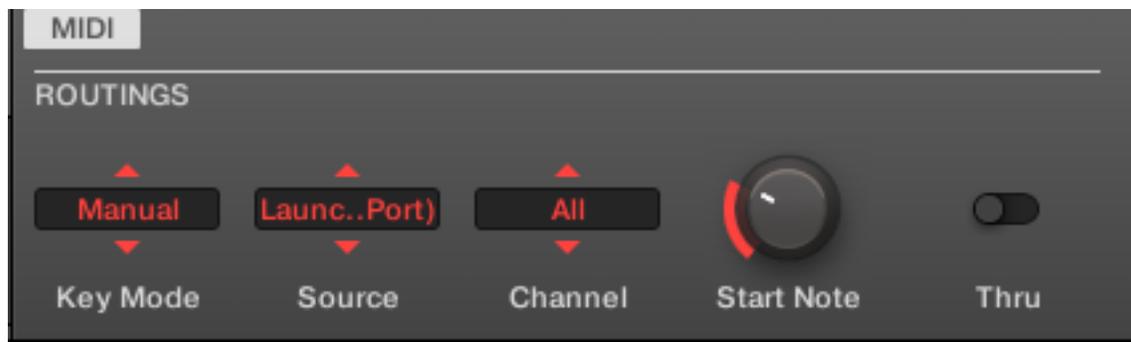

Figure 3 – MIDI routing section settings

4. The sixteen keys of the Launchkey Mini Mk3 are automatically mapped to the sixteen pads of the Maschine kit as shown in Figure 4.
