

this is josh!

a very depressed 21 year old fella, with a deep, almost a teeny tiny bit british chav voice in a way? he has a very small temper, and rarely ever is seen happy

preferably male, probably like i'd say 15-18yr old range possibly given MY AGE-

you need to be british (every character is british) it doesn't really matter if your american but can DO a british accent, so please, if you are NOT british, DO. NOT. COME. TO. ME. i just think it'd be easier for va's to be british and not be completely confused on why their favourite depressed man is not actually british.

(this isn't cause i'm against america or anything lmao most of the va's and side characters will be from america most likely it's just easier and i feel more comfortable talking to someone from the same sorta region as me, also time zones are pretty much the same, so that'd be perfect)

josh's voice is tired, fed up, annoyed and irritated most of the time, but still managing to show a lot of emotion in his voice when he speaks with rage, sadness and neutral, he's not like a quiet kid or anything, for the most part he's mainly just a depressed man with a prosthetic arm that may mean more than meets the eye...but i'll probably talk abt that if i like your voice acting first cause i'm not revealing the plot to randos that don't even fit my criteria. Josh's volume range goes from very loud to pretty quiet so you may wanna make sure you have a crispy clean sounding mic to cook.

If I like your voice acting I will most likely keep you for future seasons if you want, and as I stated in the server, FREE OF CHARGE. REMEMBER THAT. OKAY? THAT'S YOUR SECOND WARNING (well i copy and pasted this for all of them so depends if you've seen it once, twice or thrice lol) so pls dont try and blackmail me to give you money for the lines😭 given you KNOW i

have no money TO pay you, and as long as you don't mind getting loud and making close remarks to swearing, ya good!

no guarantees the eyes of curiosity WILL happen, voice acting is just one step closer to that sweet sweet Succulent pilot:)

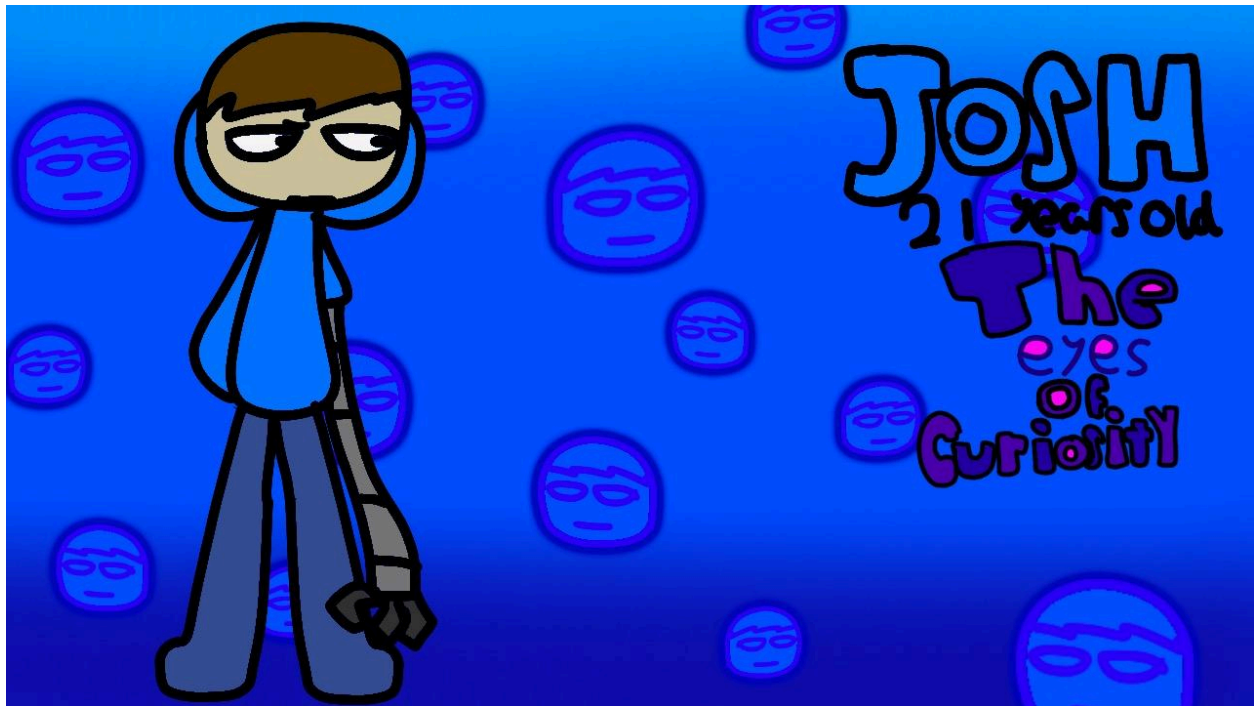

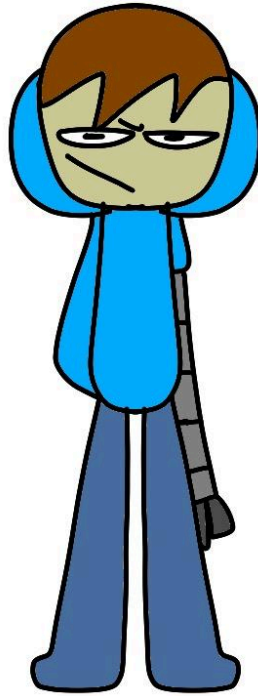

btw i'm autistic so my ideas are very epic because of my tisms! This is what happens when you get a supportive family, they get you a pc and you then get all the time in the world after being dragged out of school!!

WARNINGGGG, this show will most likely contain a lot of gore, a bit of dark humor, a teeny tiny bit of language...i mean, if you count josh saying on episode 9 of season 1 "NOW I'M PISSED." (yes these are just ideas, no they probably aren't final but i like the idea of a main swear right before kicking off the last episode of the season)

and characters saying "ass" and "crap" as well as almost swearing but most of the time getting cut off, then yeah

Here's some more art of him, and I currently have (by the time I'd be posting this) finished all the lines for Josh in the pilot.

btw the artstyle i'm using is NOT official, it's just placeholders until i can find animators.

A cartoon illustration of the same boy from the first image, standing on a blue background. There are several floating faces with different expressions around him. To his right is a large block of text and a title.

Don't even bother trying to start small talk, he hates everyone, even hot chocolate (simply because one burnt his tongue) and pretty much everything else... he doesn't even care about his own life, if you asked him if he'd save his mum or his dad, his reply would be: "neither."

all he wants is for you to go away and leave him to sulk as always, and he won't change his attitude anytime soon

he has a prosthetic arm that may mean more than meets the eye too...
