

St. THERESA INTERNATIONAL COLLEGE

Academic Year 2023 - 2024

BBA – AERONAUTICS

Training and Practicum Presentation Report

Date & Time: 08.02.2024 & 08.30 – 15.00.

Venue: 1-301

Reviewers:

- Dr. Alfredo C. Especjo Head - AB
- Aj. Surath Sridech, Head- ATC
- Aj. Praveen Shaju, Head - AR
- Aj. Mari Prabu, Lecturer

Participants:

- Aeronautics Year 4 Students and Faculty Members

Objective:

St. Theresa International College offers students the opportunity to undertake the Cooperative Education Program in order to:

1. Apply cognitive learning in an off-campus work-related organizational setting.
2. To let the public and private organizations be involved in students' professional development as a workplace practice working in the real environment.
3. Build good relationships between college and government organizations/private companies.
4. To enhance the confidence, teamwork, and time management of the students.
5. To create innovative learning environments and technology mobility concepts.

Evaluation Criteria:

Students were evaluated by the following parameters:

1. Jobs, tasks, assignments, or projects are clearly explained with examples.
2. Planning and self-assessment in terms of performance, effectiveness or efficiency on the job are clearly shown or stated.
3. Analysis or comprehension of the requirements of the job or company is shown.
4. A summary of learning achievement through the practice mode is stated.
5. Recommendation to the host company or work unit is useful.
6. Recommendations to the advisors and instructors of the program or dean is useful.
7. Overall impression of the advisor or raters.

Performance Result

The student's performance was analyzed, and the following observations were made:

- Students were punctual to submit their Cooperative Education Training project book and presentation notes.
- All the students followed the proper dress code.
- The project content and presentation were good.
- Students have fulfilled the criteria for team coordination.
- Students have good knowledge of Flight operation, Maintenance, and Cargo.

Outcome

Based on the Internship Presentation students were

- Able to apply academic studies with the fieldwork.
- Able to adapt with the team members and the society.
- Able to identify, analyse, and solve problems creatively.
- Apply the fundamental and disciplinary concepts and methods.
- Able to improve verbal and nonverbal communication.
- Able to incorporate technological tools.
