Electronic Check (e-check) Payments: There is no fee to make an e-check payment. The payment is simply withdrawn from your checking account the following day. After selecting the electronic check payment option when following the steps listed above, you will enter your bank's 9–digit routing number and your bank account number (not your debit card number) which are found on the bottom of your paper checks.

Debit/ Credit Card Payments: For a fee of 2.75% of the transaction, you may pay your student account with a credit card. The entire amount of the fee goes directly to *CASHNet*, a third-party payment processing company, and does not benefit the College.
