

**2024-2025 Season
Sponsorship Packet**

Welcome to FIRST Robotics Team 2240, "Brute Force," representing the Denver School of Science and Technology (DSST) Montview High School in Denver. Our aim is to offer STEM opportunities to high school students in underrepresented and underserved communities in Denver. By designing and constructing robots for competitions, we provide hands-on experiences in mechanical engineering, programming, and business management. These skills help nurture future leaders in science, technology, engineering, and mathematics, and equip them for STEM-based careers.

Annually, we participate in the FIRST Robotics Competition, the foremost robotics event for high school students. This competition serves as an excellent platform to inspire and motivate high schoolers of all backgrounds to pursue careers in STEM by working on projects that encourage collaboration and teamwork. However, we rely on fundraising to purchase materials, tools, and meet travel expenses for the competition.

Our 3+ weekly practices are designed to be engaging, targeted and hands-on, ensuring that our members get the most out of each and every session. We dedicate 15 hours per week to preseason training, which allows us to hone our skills and develop new strategies that will give us the best possible outcome during our competitions.

As we grow in numbers, we strive to make sure every member has a role to play in our success. With over 45 dedicated students on our team, each working on important tasks and contributing their own unique strengths, we've found our expenses have increased.

That's why we rely on donations, grants, and sponsorships from our community to help us cover the costs of building our robots and traveling to competitions. We have set an ambitious **fundraising goal of \$100,000**, which will enable us to compete on a national level and showcase our skills to a wider audience.

But it's not just about us. We also want to give back to our community and help others who are interested in robotics. This year we plan to cultivate the growing national interest in high school robotics by mentoring a new team and helping them enter an FTC competition

By sponsoring our team, you have the opportunity to feature your company and logo prominently on our website, social media channels, team jerseys, and robots – a vast array of advertising options that can effectively boost your brand awareness. You'll also have the ability to showcase that you are committed to creating a better future through your sponsorship contribution. Moreover, your sponsorship will be tax-deductible to the fullest extent possible, as Brute Force Robotics is a 501 (c)(3) non-profit organization.

Investing in our team is an investment in the future. Our young members have the potential to become tomorrow's innovators and leaders, and with your support, they will be able to achieve their goals. Help us put our team on a path to success!

With Gratitude,

Brute Force Robotics

Sponsor Pledge Form

Sponsorship Levels

Platinum Sponsor - \$10,000+

- Largest Company logo on banner
- Largest Company logo on robot sponsorship panel
- Large Company Logo on Team Jersey
- Large Company Logo, Website Link, and Company description on website
- Named as Presenting Sponsor
- Acknowledgement on team social media
- 2 Free Hoodies
- 2 Free Jerseys

Gold Sponsors - \$5,000+

- Large Company Logo on Banner
- Logo on robot sponsorship panel
- Company Logo on Team Jersey
- Large Company Logo, Website Link, and Company description on website
- Acknowledgement on team social media
- 1 Free Hoodie
- 2 Free Jerseys

Silver Sponsors - \$2,000+

- Company Logo on Banner
- Company Name on Team Jersey
- Logo, Website Link, and Company description on website
- 2 Free Jerseys

Bronze Sponsors - \$1,000+

- Company Logo on Banner
- Company Name on Team Jersey
- Logo and Website link on website
- 1 Free Jersey
