 Teacher Action Required
This Week: Confirm Your Attendees & Prep Your Team

You're 5 days away from the VEX Robotics competition — and there are two things we need from you this week: **confirm who's coming, and make sure your students are ready to compete.**

We currently have 50 out of an estimated 100 students registered. That means we're only at 50% — please take a moment to confirm who from your team is coming.

-  Confirm your roster and make sure every student competing is officially registered
-  Review their engineering notebook and make sure it tells their team's story
-  Make sure they can explain how their robot was designed and built — including the Go/Mix & Match challenge
-  Have each student practice talking through their design decisions out loud
-  Run a timed rehearsal and make sure they stay within the time limit
