

To login to Infinite Campus for the first time, take the following steps:

1. Click [HERE](#) to get to the login screen. (Or start at muskegonorway.org, choose Parents & Students, then Infinite Campus under Quick Links.) You will know you are logging into the right place when you see Campus Student in the upper right of the screen.

2. Your username is your student number (starts with 800 or 801).
3. Your password will be your first name initial and last name initial–lowercase–and your 6-digit birthdate. An example is: ms122810.
4. You will be instructed to create a new password. Your current password is your default password. A good new password would be to change the birthdate to eight digits–like ms12282010. Click on the Save button.

5. You will then enter your Muskego email address. Click on the Save button. An example is: 26smithme@muskegonorwayschools.org.

The screenshot shows a web form titled "Set Email" with a green header. Below the header, a red message states: "You are required to set an account security email." Below this, a grey instruction box says: "Please enter the email address that can be used for security." The form contains three input fields: "New Account Security Email" (with a masked email address ending in @muskegonorwayschools.org), "Confirm New Account Security Email" (with the same masked email address), and "Enter Campus Password" (with masked characters). At the bottom right of the form are two buttons: "Log Off" and "Save".

6. Look in your email for a message that looks like this:

| From | Subject |
|--|--|
| donotreply@muskegowi.mg.infinitecampus.org | Please confirm your Infinite Campus User Account email address |

Click on the link in the email to validate your address. You will get a message that looks like this:

Thank you for confirming your Infinite Campus user account email address.
