

NIGHTMARE PARADE

Halloween Darkstalker M.A.P./Collab Meme

RULES, SCRIPT, AND DESIGNS (Spoilers)

Rules:

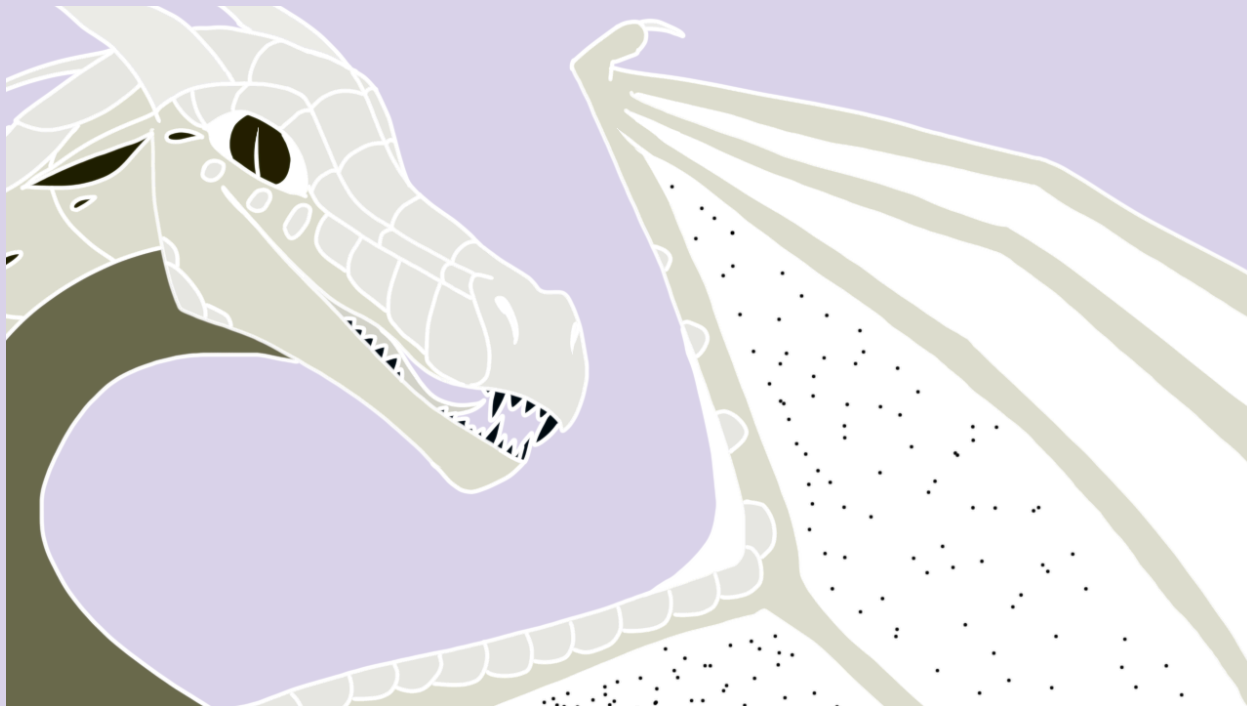

1. **No discord** is required! Codeword 1: A sentence in your comment saying you have/don't have discord, or just anything about the "no discord" rule.
2. Experience IS required, this is not a beginner friendly M.A.P. nor first come first serve. I will check your channel and I'm really sorry if I don't pick you! I will be kinda picky but patient when it comes to your part so if you need to drop or start over or go a day or two past the deadline, that's perfectly fine! Just tell me if you need to drop or want to redo your part!
3. If I heart your comment, it **DOES NOT** mean you got the part, it means I've read it.
4. Please follow the designs! If your program exports the colors **SLIGHTLY** off or you mess up a small detail, it's fine, but if you make Darkstalker bright pink I will definitely ask you to redo your part.
5. Green screens are allowed, but I'm incredibly inexperienced so unless you think it is crucial for your part to have a green screen at the end or beginning, please don't have them! Codeword 2: Tell me what you will do for your part in your comment. Don't just say you'll follow the script, because it's incredibly unspecific. Specify please!
6. The part is due a week before Halloween, on October 24th (because I want this to be a Halloween collab), I will— IF YOU PROVIDE A W.I.P./STORYBOARD— let you go a day or two past the deadline, but **that is all**.
7. Do **NOT** watermark yourself with your name or channel name—I will be doing that. The only program watermarks I will accept are Kinemaster, FlipaClip. If you use a different program not listed with a watermark and want to know if you can join, ask me and I will tell you if it's allowed or not!
8. **NO** Gacha, **NO** Roblox, and **NO** NSFW!
9. Blood and gore is allowed, but don't go absolutely crazy. However, you can do Arctic's death scene. Codeword 3: A sentence or two asking how many codewords there are.
10. I **might** edit your part during editing. So be prepared for the final M.A.P. to have some vignette filter you didn't put in or something. They will be minor edits!

11. You **don't have** to add lyrics, but if you do, please have them be in the font and color shown in the designs section. If you do not add lyrics, I will do so myself. Please have the lyrics be in English (UK or US is fine!). If you make a spelling error I will ask you to redo it, but if it's difficult to redo or you already deleted the file that's okay! (Just please, please check your spelling!)
12. The canvas size must fit the screen. Please don't let it be a square or have black bars on the bottom, and if you're wondering if your screen size is okay, just ask!
13. You can collaborate with one other person on your part. Codeword 4: Misspell "Darkstalker" subtly in your comment. (Example: Darkstaker, or Darkstalkre)
14. One part per person!
15. No tracing or stealing art. You will be given **ONE** chance to redo your part before being kicked.
16. Put effort into your part but without dying please!
17. AMV or PMV is fine, but if you are doing PMV please add tweening or collaborate with someone that can tween your drawings. It's a fast-paced M.A.P.
18. Actually look at the designs and script. The script is not what you think!
19. **YOU MUST HAVE A CUT OFF PREVENTION! THIS IS INCREDIBLY IMPORTANT SO HERE'S ANOTHER FONT.**
20. If you have a question, do not be afraid to ask! I will bend the rules (to some extent) for you!

Designs:

Darkstalker (Parts intro-5)

Part 6 and onward (basically just the first design inverted. **DO NOT ADD SHADING TO DARKSTALKER WITH THIS COLOR PALETTE**). Include the white lineart!

Feel free to simplify anything to your style! Just make sure to eyedrop the exact colors!

American Typewriter

American Typewriter in THAT color is the font and color you must use for lyrics if you want to add lyrics. You may add a white/black outline to the words if it's hard to see.

Codeword 5: (do not copy word for word, say something along the lines of this) The second Darkstalker color palette is really bright!
For any other designs, please use the Wings of Fire Wiki!

Script:

Read the script for the lyrics and ideas. If you have another idea not listed in the script, TELL ME!

Also most of this isn't even a script. It's basically just lyrics. But please ACTUALLY READ IT because there might be a codeword in it as well as lyrics you might want to copy and paste.

INTRO:

[Instrumental]

I will be doing this!

Because my idea was so basic no one will take it lol

If you want the intro (you want to be part of the Collab but don't actually want to do anything), ask me and I'll tell you what to do for it- unless you have your own idea of course!

PART 1.

"If you close your eyes, they will come. With their stomachs growling, they will come. Lazily, slowly, they will come. They're gonna come and eat your dreams."

The "they" in this part (and for all parts) is referring to Darkstalker. Since this isn't much of a script, just do a NightWing (Preyhunter or Strongwings or someone) talking about Darkstalker and as they're talking about him have images of Darkstalker being scary flash on screen however you like! (The flashes could take up the whole screen or just behind the talking NightWing).

PART 2.

"No matter who, they'll still come. Mr. Hungry is gonna come. With hunched backs, they will come. They're gonna come and eat your dreams."

Same as Part 1. You can come up with your own ideas for this part, but please ask me first and I'll tell you if it fits.

PART 3

"It's dangerous to sleep so well, and if you were to be alone, a wicked lullaby makes you cry in your sleep, burying your head into a pillow, they're gonna come from every corner for your dream filled mind. (Slurp)"

NightWing dragonets having nightmares about Darkstalker. Be creative with this one but follow the basic line above!

PART 4

“Targeting an innocent child ‘cause their dreams are so juicy, Too Bad Morning, A morning that ends your fun everyday. Hungry, Angry.”

Similar to part 3, be creative!

Codeword 6: A sentence saying you hope you got all the codewords in.

PART 5

“But hey, don't wanna be rude. Here I'll give some love to you, so come, and welcome.”

Make your own idea! But an idea/suggestion if you're unsure is to, at the end, have a NightWing dragonet falling asleep so in Part 6 it could be like Darkstalker invading their dreams.

PART 6 - 9

[Instrumental]

Change to the second Darkstalker color palette (the inverted white and yellow one) and try to be as chaotic as possible. Example: him chasing NightWing or

IceWing dragonets and holding Anemone or Arctic on puppet strings like a marionette. You can have Arctic's death scene in this and you can have dead

Arctic's ghost in your part!

OUTRO

[Instrumental fading out]

Use color-pallet 1 (yes, the normal dark purple one). Darkstalker angrily eats a strawberry and transforms into a dragonet, also known as Peacemaker. You can

be as creative as you want with this.
