PAT

42:48 pat beat all of mass effect. There are parts that are worse than he ever knew, and deserves the title of biggest wet fart ending.

- 45:23 the extended cut is terrible. Going from the best of mass effect to the worst of mass effect. And kai leng's naruto run and him naruto running slowly

- 56:30 turning around games from being completely unplayable, and dragon age origins being dragon age 1, the naming convention of dragon age
- - 58:07 dragon gae takes place in mass effect, warhammer and 40k happen at the same time but thats apparently not canon anymore? Or was never true?
- - 1:01:52 Is spiderman 2099 not really spiderman taking place in 2099?! And batman beyond
- 1:04:16 the idea of a mass effect 3 without the garbage, moving around scenes to improve it, series where moving or changing some scenes would improve it so much
- 1:06:46 making new "best" ways to experience something, watch orders, the phantom edit
- 1:09:15 the importance of editors, woolie willing to play an edited, fanfic version of mass effect

- 1:10:37 The citadel DLC's time to money ratio. The age of Ultron's after party. The arena fighting minigame. Being able to bring everyone, choices mattering
