

How to interact with your fav artists while boycotting

1.Short guide on how to interact with your favs:

For listening to songs:

Google drives for music are available

Songs released by fans on soundcloud

Podcasts released by fans

Updates:

Fan accounts on platforms (preferably twitter)

any platforms that aren't by the boycotted companies

Merch:

Fake merch

Second-hand merch (that have been bought pre-boycott only)

2.reminder that:

You are a human before you are a fan

Dont lose ur morals over companies that support genocide

You will live without streaming & buying & supporting people that dont even know you or you dont know irl

As much as you find comfort in them, stop supporting the companies they are under
