Office of the Physical Plant and Engineering Services

B.1.8 Smoking is strictly prohibited inside the campus.

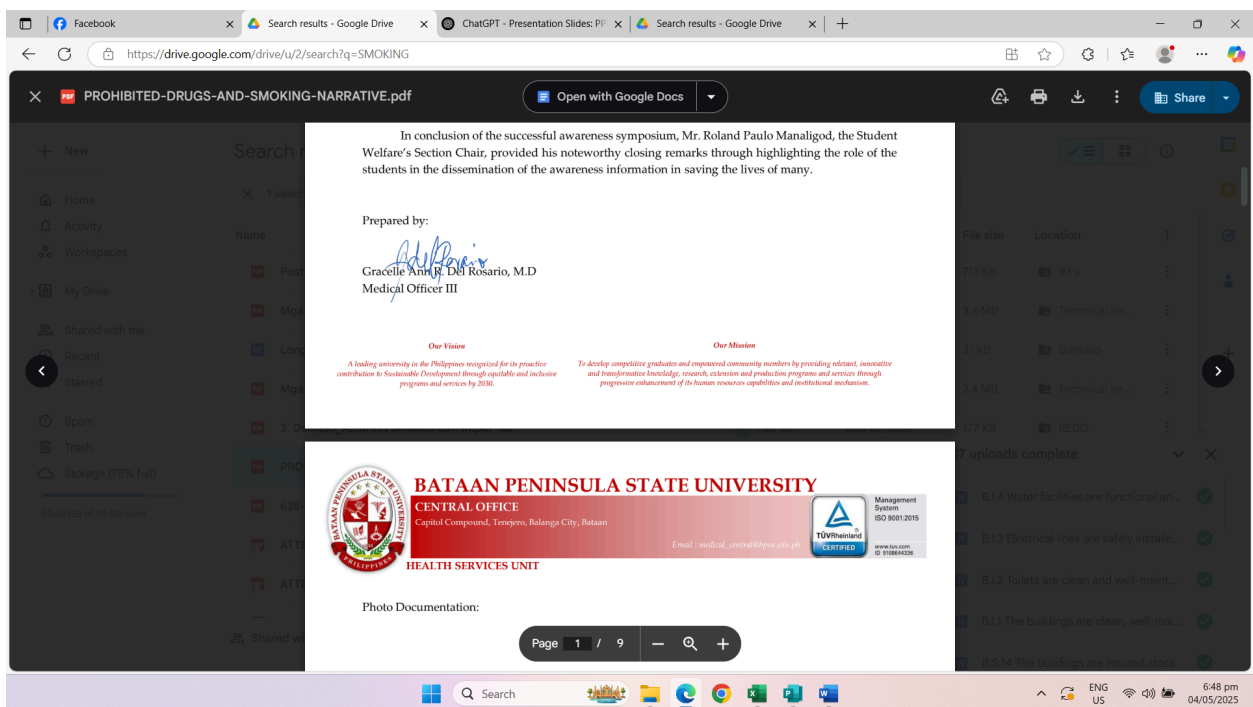

Academic Programs at Orani Campus

The Orani Campus offers a diverse range of academic programs designed to meet the evolving needs of students and the demands of the modern workforce. From technical-vocational courses to degree programs in business, education, and information technology, the campus is committed to delivering quality education that is accessible and inclusive. Our faculty members are industry-experienced professionals who guide students through a balance of theoretical learning and practical application.

In support of student development, the campus integrates a holistic approach to education. This includes academic advising, research opportunities, and community extension services that foster leadership, critical thinking, and civic responsibility. Our modern facilities and well-equipped laboratories ensure that learners gain hands-on experience aligned with industry standards and academic excellence.

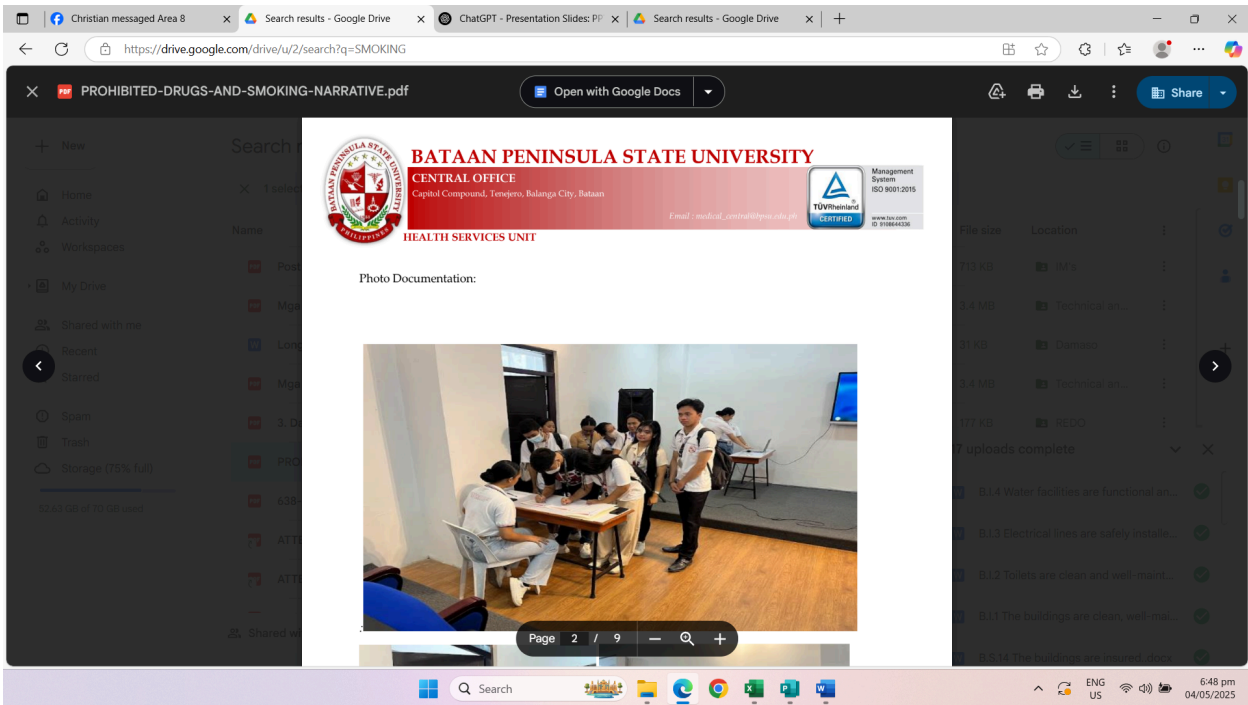

As part of our commitment to a safe and healthy learning environment, the Orani Campus strictly enforces the "No Smoking" policy under guideline B.1.8. Smoking is strictly prohibited within campus premises to protect the well-being of students, faculty, and visitors. This regulation reflects our dedication to promoting a culture of discipline, health consciousness, and mutual respect across the entire academic community.
