The information provided by **Alpha Status Stocks, LLC**, including but not limited to its associated entities **Alpha Investor Academy, Team Alpha Trading, ItsMikePoarch, and Alpha Status with Andrew** ("our companies"), is based on publicly available data, information supplied by profiled companies, press releases, and other sources we believe to be reliable. **However, we do not guarantee the accuracy, completeness, or timeliness of this information**, and it should **not** be construed as a complete statement or summary of all available data.

Alpha Status Stocks is not responsible for any claims, projections, or representations made by the companies we profile or discuss. Viewers and readers should not rely solely on the information provided through our website, newsletters, alerts, or videos when making investment or financial decisions.

Instead, any content shared through our platforms should be considered a **starting point** for conducting your own **independent due diligence**. We strongly encourage all viewers, readers, and subscribers to conduct a **full and independent investigation** of any company mentioned, including reviewing **SEC filings** such as Forms 10-Q, 10-K, 8-K, 3, 4, 5, and Schedule 13D, and consulting your own **licensed tax, legal, business, financial, or investment advisors**.

Safe Harbor for Forward-Looking Statements

Pursuant to the **Private Securities Litigation Reform Act of 1995**, we hereby provide a safe harbor regarding forward-looking statements. Any statements made that express or involve discussions of future predictions, expectations, beliefs, projections, goals, assumptions, or other statements about future events or performance are not statements of historical fact and should be considered **forward-looking statements**.

Such forward-looking statements are based on estimates, projections, and expectations as of the date they are made and involve various risks and uncertainties. These statements may be identified by terminology such as “**expects**,” “**anticipates**,” “**projects**,” “**intends**,” “**believes**,” “**understands**,” “**may**,” “**could**,” “**should**,” or similar language.

There is no guarantee that any views expressed will be realized, and past performance is not indicative of future results. Actual outcomes may differ materially due to various factors, including but not limited to market volatility, economic conditions, and unforeseen events.

Penny Stock Disclosure

Many of the securities we profile are considered penny stocks. Penny stocks inherently involve high risk and price volatility. You may lose your entire investment in any penny stock that you invest in. You should be acutely aware of the following information and risks inherent in any penny stock investment that you may make, including any issuer profiled on our websites or otherwise: (a) we receive monetary or securities compensation from persons that claim they are a non-affiliate shareholder or an issuer; however, we conduct no due diligence whatsoever to determine whether in fact they are a non-affiliate; (b) there is an inherent conflict of interest between our information dissemination services involving various issuers and our receipt of compensation from those same issuers; (c) we may buy and sell securities in the securities that we provide information dissemination services, which may cause significant volatility in the issuer’s stock, price declines from our selling activities, permit us to make substantial profits while we are disseminating profiles or information about the issuer, yet may result in a diminished value to the stock for investors; (c) we conduct no due diligence on the content of our Publications; (d) Penny stocks are subject to the SEC’s penny stock rules and subject broker-dealers to customer suitability rules and other requirements, which may lead to low volume in the securities and/or difficulties in selling the shares; (e) penny stocks are often thinly

traded or have low trading volume, which may lead to difficulties in selling your securities and extreme price volatility; (f) many of the penny stocks we profile or provide information about are subject to intense competition, extreme regulatory oversight and inadequate financing to pursue their operational plan; (g) the issuer profiles and information we provide is wholly insufficient to formulate an investment decision and should not be used in any way as a basis for making an investment decision and, at the most, it should be used a starting point from which you conduct an in-depth investigation of the issuer from available public sources, such as www.sec.gov, www.otcm Markets.com, www.sec.gov, yahooofinance.com, www.google.com and other available public sources as well as consulting with your financial professional, investment adviser, registered representative with a registered securities broker-dealer; (h) we urge you to conduct an in-depth investigation of the issuer from the above or other available sources, especially because we only present positive information, which is an insufficient basis to invest in any stock, yet alone a penny stock; accordingly, you should proceed with such investigation to determine, among other things, information pertaining to the issuer's financial condition, operations, business model, and risks involved in the issuer's business; (i) the issuers we profile may have negative signs on the otcm Markets.com website (i.e. Stop Sign, No Information, Limited Information, Caveat Emptor), which you should determine from entering the symbol of the stock profiled into the otcm Markets.com website; (j) you should determine whether the issuer we profile or provide information about is a development stage company, which is subject to the risks of a development stage company in a similar such business, including difficulties in obtaining financing for operations and future growth; (k)

because we only present positive information regarding an issuer, ; you should conduct an in-depth investigation of any possible negative factors regarding such issuer; (l) our information is "as is" and your use of the information is at your own risk and such information may change at any time and it is not based upon any verification or due diligence of the statements made; (m) we state that profiled stocks are consistent with future economic trends; however, future economic trends or analysis has its own limitations, including: (i) due to the complexity of economic analysis as well as the individual financial and operational characteristics of an individual issuer, such economic trends or predictions may amount to nothing more than speculation; (ii) consumers, producers, investors, borrowers, lenders and government may react in unforeseen ways and be affected by behavioral biases; (iii) human and social factors may outweigh future economic trends and predictions that we state may or will occur; (iv) clear cut economic predictions have their limitations in that they do not account for the fundamental uncertainty in economic life, as well as ordinary life; (v) economic trends may be disrupted by sudden jumps, disruptions or other factors that are not accounted for in such economic trends analysis; in other words, past or present data predicting future economic trends may become irrelevant in light of fully new circumstances and situations in which uncertainty becomes reality rather than of predictive economic quality; (vi) if the trends involves a single result, it ignores all other scenarios that may be crucial to make a decision in the event of various contingencies; (n) the information we disseminate about issuers contain forward looking statements, i.e. statements or discussions that constitute predictions, expectations, beliefs, plans, estimates, projections as indicated by such words as "expects", "will", "anticipates", "estimates; therefore, you should proceed with extreme caution in relying upon such statements and conduct a full

investigation into any such forward looking statements; (o) forward looking statements are limited to the time period in which they are made and we do not undertake to update forward looking statements that may change at any time; and (p) we make statements in our profiles that an issuer's stock price has increased over a certain period of time; however, these statements only reflects an arbitrary period of time, and is of little or no predictive or analytical quality. Testimonials Disclaimer

In accordance with **16 CFR Part 255** and the **Federal Trade Commission's guidelines** regarding endorsements and testimonials in advertising, please be aware of the following:

Endorsements, testimonials, and descriptions of past performance shared by users, clients, or community members of **Alpha Status Stocks, LLC**, including affiliated brands such as **Alpha Investor Academy, Team Alpha Trading, ItsMikePoarch, and Alpha Status with Andrew** ("our companies"), are based on **individual experiences** and **personal results**. These testimonials reflect **real opinions and stories**, but **they are not typical**, and **you should not expect similar outcomes**.

The results shown in any video, screenshot, comment, or review **should not be considered representative** of all users.

How Testimonials Are Collected

Testimonials featured in our content — including on our websites, YouTube videos, emails, SMS communications, Discord, and social media — may have been submitted via text, email, audio, or video. All testimonials are shown **verbatim**, except for minor edits for grammar, brevity, or clarity. We do **not pay** individuals to leave testimonials, and **no compensation** is offered in exchange for endorsements.

Important Note on Past Performance

Testimonials referencing profits, growth, or trading success involve **past performance**, which is **not indicative of future results**. Even when trade results are real, **they do not guarantee you will experience the same success** — or any success at all.

Becoming a skilled trader takes hard work, time, and experience. Many of the individuals featured in testimonials have years of practice and have developed their own strategies over time.

We do **not track or verify** the typical results of current or past students or members. As an **educational content provider**, we **do not have access to personal brokerage accounts or trading statements**.

Academic Research on Day Trading Profitability

Available research suggests that the **majority of day traders do not consistently profit**. Below are examples from academic studies:

- A 2014 study, *“Do Day Traders Rationally Learn About Their Ability?”* (University of California), reviewed **3.7 billion trades** on the Taiwan Stock Exchange and found that only **9.81% of day trading volume** was generated by **predictably profitable traders**, who made up **less than 3% of all day traders**.
- A 2005 study in the *Journal of Applied Finance* (University of Oxford & University College Dublin) found that, of **1,146 U.S. brokerage accounts** analyzed from March to June 2000, **only 50% were profitable**, with an average net profit of **\$16,619**.
- A 2003 article in the *Financial Analysts Journal* (University of Texas) found that of **334 accounts**, **only 35% were profitable**, and **just 14% made over \$10,000**.

These studies highlight the difficulty of achieving consistent profitability in trading. While some traders succeed, **at least 50% of traders are likely to lose money**, and results often vary dramatically from person to person.

Risk Disclosure

Trading stocks, options, or any financial instruments involves **substantial risk**, and **you can lose your entire investment**. Never trade with funds you cannot afford to lose — including money allocated for rent, education, retirement, or debt payments. **Every trade is at your own risk**.

By participating in any services, courses, communities, or communication from our companies, you agree to take **full responsibility for your own trades and decisions**, and you acknowledge that results shared by others are not a guarantee of your future performance.
