

Salute to Service Activity: Military Job Match Game

Objective

Students will learn that the military includes many different careers. They will match job descriptions to military careers and understand how each role helps a team.

Introduction

Explain to students that many people think everyone in the military does the same job, but there are several different careers that help support missions.

Ask students:

- What jobs do you think exist in the military?
- Why do you think different roles are important for teamwork?

Activity: Military Job Match Game

Read each job description and have students guess the career.

| Job Description | Correct Answer |
|---|------------------|
| This person flies helicopters or airplanes to help transport people and supplies. | Pilot |
| This person helps injured people and provides medical care. | Medic |
| This person fixes vehicles, equipment, and machines. | Mechanic |
| This person protects computer systems and important information. | Cyber Specialist |
| This person builds roads, bridges, and structures. | Engineer |

Closing Discussion

- Which military job sounded most interesting?
- Which job would you want to learn more about?

Explain that military teams rely on many different careers working together to complete missions and help people.
