*****RELEASE NOTES 173*****

Sprint 173: July 17-August 7, 2024, Release 4.7

- [\[HELIO-4219\]](#) Add drop-down nav menu support for Aperio Press "sub-pages" in aboutware
- [\[HELIO-4693\]](#) Warn Admins/Editors When They Download a Watermarked PDF (In-reader/CSB download)
In the previous sprint we had added a warning for those users logged in as admins, editors or analysts when they clicked on the Download button and selected the PDF that this version of the PDF should not be used for editing due to duplicating the watermark. This ticket put that warning within the e-reader, so when a permissioned user selects the Download button, they will also get that message. If there is only an epub, the warning will not display (since this is about PDFs).
