## Hello, Pioneers!

A heartfelt welcome from the Human Capital & Organization of EERI UI SC 2025!

The Earthquake Engineering Research Institute (EERI) University of Indonesia Student Chapter stands apart as a truly distinctive organization. Here at EERI UI SC, we view our members as the heart of what we do, dedicating ourselves to crafting an experience that is both meaningful and transformative. We are committed to fostering a nurturing and inclusive environment where growth and sustainability thrive. Our mission is to empower both the organization and its members by cultivating leadership, inspiring motivation, and closely tracking progress.

As the founding EERI Student Chapter in Indonesia, we've built strong networks with chapters nationwide. We believe EERI UI SC holds incredible potential to achieve groundbreaking accomplishments, driven by the passion and dedication of its members. We are seeking individuals who are not only enthusiastic but also guided by strong values to join us in redefining the future of earthquake engineering.

This application is your opportunity to share your aspirations, vision, drive, and commitment to becoming part of our team. While the path ahead may be challenging, we are confident that with you on board, we can navigate these obstacles and achieve greatness together.

We deeply value the time and thought you invest in completing this application. Please respond with honesty and authenticity, as your answers will guide us in finding the role that aligns best with your strengths and ambitions. We hope this process not only reveals your potential but also helps you grow as an individual. Thank you, and we wish you the very best of luck!

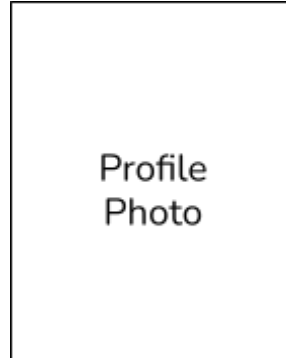

Best wishes,

Executive Director of Human Capital & Organization EERI UI SC 2025

Andhiko Iman Rafi
