

Cyber Incident Update 9/11/26

September 11, 2026

AB Students, Staff, and Families,

This is to provide a brief update on the cyber incident we previously shared with you. Yesterday, September 10, we implemented a series of new security protocols on our systems designed to secure access to student and staff accounts. Since that time, our malicious inbound traffic has been reduced to zero. While this is a positive step forward, we recognize this is a fluid situation and will continue to closely monitor all of our systems carefully.

At the same time, we are working closely with PowerSchool as they complete their investigation. We will communicate with you more when we have specific information to share.

We continue to work closely with our forensic cybersecurity team, legal counsel, and PowerSchool's cybersecurity team. Thank you for your patience as we continue to work on this incident.

Sincerely,

Peter Light
Superintendent of Schools
