Seesaw		
Section	Agenda	Task
1: Welcome Click for Video 2:02 <i>Meghan Johnson</i> <i>EdTech TOSA</i>	<u>Welcome to Seesaw</u> - Seesaw is our adopted LMS (Learning Management System) for grades PreK-2. - We have purchased Seesaw for Schools for PreK-2nd grade. - New features that come with this paid version and new features were released over the summer. - Enjoy the following modules created by our very own Camas teachers!	Module 1 Tasks: ☐ Simply watch this short video and get ready for the learning in the following modules.
2: Account & Settings Click for Video 14:30 <i>KC Phelps</i> <i>Woodburn EI</i> [Slide Deck]	<u>Account</u> Accounts: Activate your account and bookmark the site. Gear icon: Check settings regarding your account including your profile pic and email notifications. Seesaw for Schools: Student information synced from Skyward. Principals can add staff. Teachers can add support staff as co-teachers. Standards/ skills have been added by grade level Wrench icon: Check settings about your class, such as creating folders, options for family access, blog and student posts settings. Navigation: See the feed, student work and folder work. Specialists: Library, PE and Music will share one Seesaw class per homeroom teacher. Each specialist class will have a folder for PE, a folder for Music and a folder for Library. We are working out best practices on how these will be auto created for you. Once all programs are syncing for the new year, we will have a solution.	Module 2 Tasks: ☐ Bookmark website ☐ Login and verify information ☐ Create a test class ☐ Add support staff to class ☐ Check your gear settings for student and family approvals ☐ Turn on the option for a sample student ☐ Rename your class ☐ Setup folders
3: Activities Click for Video 20:28	<u>Activities</u> Posts vs. Activities Activity Library: Find, modify and create Seesaw activities. Shortcuts Assign Activities: Tag folders, skills and assign to a class or specific students Respond to an activity: Student perspective	Module 3 Tasks: ☐ Find an activity and save it to your library ☐ Make a copy of an activity and modify it

Karmen Distant Helen Baller El [Slide Deck]	● Manage student posts: Journal feed & Activity summary view ● Explore activity options: Lots of creative tools, add video, labels, shapes, multiple pages, links. ● Explore as a student? Note: You may want to put your YouTube links through ViewPure to avoid advertisements or inappropriate content. New Features being released!	❑ Assign an activity to your sample student in your test class ❑ Explore the activity summary view ❑ Try creating an activity with icon shortcuts, a video as an example, a template that includes shapes, labels, a photo and a link to another slide
4: Grading Work & Skills Click for Video 12:35 KC Phelps Woodburn El [Slide Deck]	<u>Grading Work & Skills</u> ● Skills: CCSS have been uploaded by grade level as well as some additional items from report cards. Priority and overarching are searchable. ● Approve items: How to use the approval as a find and score activities ● Grade skills: How to use the stars to track student progress towards skills ● Comments & Voice comments ● Skill Matrix: See your students and current progress towards standards in a glance.	Module 4 Tasks: ❑ Edit an activity from earlier and add skills ❑ Search skills to find priority and overarching skills. ❑ Grade the skills attached to an activity you assigned to Sample Student ❑ Add a voice comment ❑ Explore the skills matrix
5: Student Perspective Click for Video 12:47 Meghan Johnson EdTech TOSA & Karmen Distant Helen Baller El [Slide Deck]	<u>Student Perspective</u> ● Devices: All students, K-12, will have Chromebook. These are always filtered. ● Logging In: Students in grades K-2 on district owned devices can login with a Clever badge (how to print Clever badges) ● Access: The Clever portal is accessible by all. ● Troubleshooting: For badges, Chromebooks and Google accounts. Link for password resets, csd-scsn. ● Student Navigation ● Reflect in Seesaw Extension <u>Student Support materials/ printables</u> ● Responding to an Activity & ● Creating a Post ● Icon posters ● Student experience- support materials	Module 5 Tasks: ❑ Know how to print Clever Badges. ❑ Explore the Clever Portal ❑ Add the Reflect in Seesaw Extension & try it out

6: Parent/ Family Supports

Parent & Family Supports

- **Communication**
 - **ParentSquare** for all message for families (more in a later unit)
 - **Class App:** The Seesaw app for students to complete work.
 - **Family App:** The Seesaw app for families. Families only have access to their students' work, and can't see grades. Up to 10 family members per student.
- **Family Settings:** Go to the wrench to adjust your settings for families to meet your needs.
- **Invite Families:** Get the link and send through ParentSquare later. *(Not an option until students are in your Seesaw Class)*
- **Announcements:** Please do not use for communicating with families, only students. To communicate with families, use ParentSquare.
- **Blog:** Great way to share samples from all students to families. Creates a website for the public, and may choose a password. Similar to a star work wall. Only student first names are visible. Get this setup now, and we will use in a later unit.

Module 4 Tasks:

- ☐ Check your settings for families
- ☐ **Get the link to invite families to your Seesaw class.** *(Please note this optional is only available after students have been assigned to you through Skyward).*
- ☐ **Get the link to your blog.**
