

Wisconsin Hunter Education Program Field Test

1. What are the four basic rules of Firearm safety? TAB-K
2. Pick up the firearm from the table, check to make sure it is unloaded, identify the type of action, and name all the other action types.
3. Locate the safety and explain and demonstrate how to use it.
4. Show the three basic parts of a firearm.
5. What does the action do?
6. Identify the make, model, caliber/gage of the firearm. Is it a shotgun or rifle?
7. Identify the type of sight on the firearm, the type of magazine, and where it is located.
8. Pick out the correct ammunition for the firearm and give the maximum distance it is capable of traveling.
9. Load the proper ammunition into the firearm.
10. Demonstrate the 7 firearm carries.
11. Show how to safely carry the firearm when there is a person on your left, right, both sides, and also in front or behind you.
12. Show the safe zones of fire with a person on your left, right, or both sides of you.
13. What would you do if you were approached by another person when carrying a firearm in the field? What would you do if that person was identified as a law enforcement officer?
14. Proceed to a fence and cross it alone and with a companion. (This may be explained)
15. Explain how to safely climb into a tree stand with a firearm or bow.
16. What would you do if you were hunting with an unsafe person?
17. Place your firearm properly in a case and return it to a vehicle or original place where it was obtained from.
18. You have just arrived at a landowner's home to ask permission to hunt on their property. Explain what you would do.
19. Control the muzzle at all times.
20. Keep finger outside the trigger guard during the test.
