Dear Content Enhancement Routine Committee,

Charlotte-Mecklenburg Schools fully supports Jennifer Anderson continuing her training and learning around SIMS strategies to support our students through the learning strategies and our teachers through the content enhancement routines. We use the content enhancement routines throughout our school district and plan to continue to offer SIMS training to our teachers.

We are committed to providing Jennifer with a post-institute apprenticeship and to continue her professional development in the SIMS strategies and content enhancement routines. In the future, we hope to expand SIMS strategies and content enhancement routines to more of the district's teachers. We hope that Jennifer will be one of our Professional Developers to train and support staff as we increase availability of training to staff throughout the district.

Sincerely,

Miyoshi Lawrence Mack
Program Manager for Exceptional Children
