

10 English for Speakers of Other Languages

Learning Area: Languages
Timetable Code: 10ESOL
Teacher in charge: Lucy Pearce

What will I learn?

ESOL (English for Speakers of Other Languages) is designed to support students whose first language is not English, and assist them with the language requirements of their other subjects.

Classes are small, and most students work on individual programmes to meet their own needs.

The course covers reading, writing, speaking and listening skills. Junior students are assessed against the English Language Learning Progressions (ELLP), rather than curriculum levels.

Where does this option lead?

Senior ESOL classes as required
