

Frost Pupper Expansion:

//Four new scenes for the PC to dominate and use the submissive giantess.

Kiss and Grind	1
Pawing Slobber	4
Deep Bounce	6
Three Faces of a Dog	7

Kiss and Grind

//Requires cock.

//Tooltip:Teach your puppy the art of discipline and give her lots of kisses too.

"Tongue," you say.

You grab hold of your puppy's leash with a soft grip. The lupine giantess opens her mouth and sticks out her long tongue. The heat from her sumptuous body emanates out as it forms a clear haze. She continues to pant and eye you curiously with those soft eyes, which are always wet.

[pc.heightRange 48 76 90 |You may as well be a foot stool for her but her submissive nature is the one grace you have over her.| You barely come up to her hips but you manage to at least hold dominance over her.| You're still a head shorter than her but the difference is miniscule. You aren't the little dom. She's the big sub for you.]

She's so obedient you wonder how well you could train her in this place. You walk around her and tell her to stay still. She perks up, still as a statue; her fluffy tail brushes against your [pc.face] though. You laugh and when you glimpse her exposed backside, you gaze at it longingly.

That ass is unreal. [pc.hasVagina|Your pussy tingles from the sight of her.][pc.hasCock|Your cock twitches from the sight of her.]The way it bottoms out like a full peach, the azure swirl which had been painted onto her flesh, and the white fur which tufts along her legs left you speechless. Something twisted pops into your head.

"Come." You tug on her leash.

Your giant girl follows like a good bitch. Your [pc.ears] perk up, listening for her thud behind you. She follows you, each step pounding against the stone, and you lead her to the back corner of her cave. Pressed up against the stony wall, you sit on a convenient cut of stone almost shaped like a crude chair.

Maybe someone lived here before, but you don't care. You must have that ass and need to feel every inch of its juicy glory. You pull out your [pc.cock] [pc.hasBalls| and balls], showing off for your hungry thrall. Your giantess puppy flicks her tail back and forth, observing you faithfully. She's waiting for your order.

You command her to bend down into your lap. When she does so, her soft butt presses down its full weight upon your pelvis. Her warmth tickles your [pc.skinColor][pc.skin] at the right

temperature. Exhaling, you let out an oof, but your doggie just rests in her favorite spot, her paws folded in her own lap, adoring you. You pull her leash back and she nuzzles her cheeks into your dick. She lets out a curious coo and you make it plain for her.

"When I push against you, you move your hips. Nice and slow."

[pc.dcb]She's yours to mold and to use. She should be thankful you even consider using her| She's such a good girl. It's only fair to help give her relief when you can[|].

The lupine giantess nods one time too many. Unable to contain your lust, you begin to grind your [pc.cock] between her meaty depths. The friction building against your shaft leaves you swollen within seconds. The contrast between her weight and fuckmeat buns is indescribable. The frost giantess takes to your instructions well; however, her gyrations are sloppy and uncoordinated. Wedged between her cheeks, you correct her posture, rhythm, and friction with each gentle tug of her leash.

When you pull, her ass clenches and allows you to rub into the depths of her crevice. Your [pc.butt] bounces in sync with her pelvic drops. Your [pc.cock] is lost in her azure cheeks. The heat steaming off her leaves you marked by her feminine heat. As you work your bitch over, you drag her back against your [pc.chest]. She whines playfully and you ask her for her tongue against yours.

"Kiss," you whisper.

Now grinding between her ass cleft with a smooth but occasional untimed rub, you stick your fingers down the needy Jotun's mouth. You slide your fingers back and forth while tugging her leash back. She's floaty: her ears twitch with each yank, her moans curl around you. She's a quick learner, you note.

Before long, she's putty in your hand. She occasionally paws at her erect [pc.cock]. Her white balls swing and sway with each rock against your cock.

"Such a good girl. Faster now, deeper, I want to mark you," you whisper into her ear, nibbling on it.

Despite the height difference, the frost giantess' a mewling mess. She rubs and kneads her paws over her blue rod. You tell her to stroke her knotted slab in sync with her grinding. Her eyes sparkle with excitement and need. Each order only draws out her grazing deeper into your pelvis.

[pc.hasTail|Your [pc.tail] sticks straight like a lightning lure.]

She's twirling and rubbing each part of your shaft between her sweat-stained cheeks. The tension and pressure building in your [pc.cock] spills a drip of cum between her buns. She slams her meaty rolls into your pelvis excitedly. You're caught up in this strange mixture of order and pleasure. [pc.hasBalls] Each time she rocks her ass over your [pc.hips], those balls of your bounce in tune with her grind.]

After a few moments, you cast aside the command for passion. You jerk her face back and slosh your [pc.tongue] with hers. She practically eats your [pc.face], slobbering and slicking her long tongue with yours. The frost puppy worships your every touch. You can't stop kneading

your [pc.cock] between her blue trench. She's learning so well now: her ass fondles and shakes in deep twirls, as if she can sense your cock's twitches offering her that load.

A glob of precum strings from her blue head. You're nearly there. She is too. Between sloppy kisses and heated cheek grinds, you whisper to her: "Finish."

Her whole body stiffens. You lean into her, pounding every thrust between her cheeks. The warmth of her body tingles your shaft. Her moans are a whorish howl into the cave. She strokes her blue cock at furious speeds. Her curvaceous hips dig into your [pc.cock]. With one last kiss, you blow your backed up load. A [pc.cumVol 0 100 100|spurt|surge|flood] of cum splotches between her cheeks. She bends over, presenting her ass and balls for your display.

"Come," you exhale, clenching your cock and marking her ass with your dying loads.

The frost puppy shudders and her whole body convulses in a prolonged orgasm. Ropes of cum explode out from her canine cock. She continues her ass dance against your [pc.cock], wailing in ecstasy as she's used and she's using her [pc.mistress] for relief.

You soon fall against the wall and your puppy finishes her shameful display. She kneels before you, her ass shaking with the beat you taught her. She continues to rub out a deep amount of cum. A white puddle forms beneath her feet.

[pc.dcb|A dark thought ignites in your mind.| A clever suggestion pops into your head.]]

"Lick it up." You almost laugh.

Your doggie's tail stands straight up. Her whole body tenses. She casts her head sideways at you. Rather than show disgust or disappointment, a luridness glistens in her eyes. She sticks her ass out and continues to swing it back and forth.

Spent from her training, you take a few moments to catch your breath. While you do so, your frost puppy excitedly slurps and licks up her own cum. You don't know whether to be turned on or pleased with your control over the pupper.

You spend a brief amount of time with your puppy as she cleans up her sticky mess. After about an hour, you leave her to clean up her remaining jizz.

You move on, satisfied.

Pawin Slobber

//Requires a cock.

//Tooltip: Have your frost puppy slobber and milk your cock.

You don't wait as you strip off your [pc.gear] and stand naked before the frost giantess. Your [pc.eyes] drink in her gargantuan physique as you stretch your hand around your [pc.cock]. Seizing her leash, you pull your sub forward and order her to kneel. The puppy perks her ears up curiously. But she obeys. She kowtows before you on her knees. Her tongue sticks out from her mouth as she leers at your exposed [pc.cock]. You draw closer to her and plant your shaft over her puckish nose.

[pc.dcb]You make sure you and others know who owns this slutty puppy.[You give your warmth and a treat since good girls get rewarded.]

She sniffs and goes cross-eyed from your distinct musk. You're quite sweaty from your travels and a good girl earns her prize, you think.

You purse your [pc.lips] in contemplation. What to do? Then it comes to you.

"Do you want a treat? Are you a good girl?" You soon slap your [pc.cock] over her azure lips. You mark her with your sweat and odor and her whole body slackens. She snaps at your cock's head with her slick tongue, but you yank her leash.

[pc.dcb]You draw her to heel. She needs to learn her place.[You want to teach her to listen. She needs to learn how to give to get.] "Tongue first. Work my nethers and then go up to the tip. Give it a good tongue bath."

As soon as you say that, your puppy sinks her lips into your bulge [pc.hasBalls]and balls]. [pc.hasBalls]Her eyes glisten as she cradles your nutsack into her mouth. She lathers her drool over every inch of your [pc.balls]. She takes your order almost literal: tiny licks give way to tongue-squelching slobbers that leave your sweaty sack a sticky mess.][pc.hasVagina] She sloshes her blue lick over your exposed lips. Each tongue caress swipes across your folds. Your [pc.legs] buckle from her puppy kisses over your petals. She even suckles on your clit, lapping in shallow pecks.] She continues upwards. Each time she slicks her tongue over each side of your cock, she twitches her ears. You're almost frightened at how quick she is to listen and interpret your commands with such zeal.

When she spit shines your head, she delivers a few suckling kisses. The frost puppy laps at it and before long, slides it into her welcoming mouth. She cleans and polishes the head while offering a small vacuum. The sudden sensation of having your [pc.cock]'s crown nuzzled on makes your whole vision go white. She's like a succubus sucking the life out of you with her teasing devotion.

A wet pop brings you back to reality. She brushes her flushed cheeks against your [pc.cock]. Her tail wags impatiently. Her nipples are as hard as diamonds. Her cock's flared to attention. As much as you've been cleaned, she's ready to burst. You take it to the next level.

"Good girl." You scratch her right ear. She practically melts at your touch. She moans into your scruffing of her fuzzy ear.

"Paw and mouth, now." Your instruction stays as vague as before.

A glimmer of naughtiness sparkles in her wet eyes. She wraps one hand around your base while [pc.hasBalls]coiling the other around your balls][pc.hasVagina]sliding her fingers into your cunt]. She shows no mercy: she stuffs half your length into her gullet. Caught off guard, you let out a prolonged groan as her cheeks hollow inward, her lips vacuuming around your cock's crown. Her tongue sloshes and lavishes your veins with her sticky drool. She keeps her gaze on yours, watching for your reaction and gauging how best to please you, her [pc.mistress].

Her paw squeezes and lathers her saliva around your [pc.hasBalls]sweaty balls][pc.hasVag]silky folds] to wash off the sweat and dirt. Her top paw, meanwhile, massages in a series of rhythmic strokes to maximize your bottom half. You stand there relaxed, your grip on her leash loosened.

She takes that as a sign and coos into your shaft. She bobs her head back and forth in a spitfire motion. Every part of her works like a milking machine to get her gooey reward.

She worships you while precum readies inside your throbbing [pc.cock]'s veins. Your climax rears in your shaft. Everything she does is magic. You throw off the pretense of a stoic dominant and drive her into your pelvis. Her eyes go cross-eyed as she slackens at your grasp.

You throw your hips into her throat. Her tail wags wildly while her ass jiggles and sways back and forth like a metronome. Your pet lowers her lids and gives into your command. Your moans become a drawn-out sound. Each time you thrust into her, a spittle of saliva dribbles out of her lips. She's so hot and wet inside her sucking mouth. You fuck her face now. She glugs and glugs every inch of your [pc.cock] so she's hilted into your pelvis.

Each time you smash her mouth, your orgasm creeps upwards. She senses it and twirls her tongue around your head. You buck your hips into her and without warning, you fire off a [pc.cumVol 0 100 1000]drop|spool|salvo of cum. You climax so hard into her that her ears flatten, her eyes go cross, and she howls out a loud moan that reverberates throughout the cave.

After what feels like an eternity, your orgasm subsides. You try to dislodge from your puppy's mouth, but she growls at you. She slides back down your length and toys with your cock's base playfully. She chaps her lips back and forth and groans. She's going to drain you until you can't see straight.

She cleans you and basks in sucking on your cock like a fine candy.

By the time she lets you go an hour later, you're jelly and can barely stand. She licks her paws clean of the cum now settled in her stomach. She lays on her back and rubs her abdomen. She smiles and offers a knowing wink before falling asleep.

She is a good girl, after all.

Deep Bounce:

//PC has a cock.

//Have your puppy work your dick with those big old titties.

You leer at your puppy's fat breasts. They hang dangerously low on her chest. Each time she exhales, those azure mammaries flop. All that tit meat is making you hungry enough to suckle and drink from her puffy nipples. When you meet your puppy's gaze, she presses her breasts together. Her cleavage spills out and you take a handful.

A soft murr escapes the frost giantess lips. She squirms kneeling before you. The height difference would be comical, but you're her [pc.mistress]. You can't afford to lose face with such an obedient puppy. Without taking your eyes off her, you pull off your [pc.gear]. Naked, you stroke your [pc.raceAdjective] [pc.cock] and slip your pole between her breasts.

The frost giantess glances down at your [pc.cock], biting her lower lip. She doesn't need to ask. The puppy opens her mouth and spills out a heaping of drool to leave your shaft sticky. [pc.hasVagina]Your pussy twitches from your cock being suckled. The sensation is a double

pleasure.][pc.hasBalls|Your balls sway when she suckles your cock.] It cascades down her neck and into her pushed together cleavage. You stand over and slide your shaft into her crevice.

You position your [pc.feet] firmly on the stone. You want to keep yourself still as granite.

The good girl closes her cleavage and traps you within her meaty depths. You push your [pc.cock] up and down in a slow rhythm. Each time you move inward, a heaping of tit meat pressures and conceals your [pc.cock] within her massive melons. Your [pc.nipples] stiffen. It feels like heaven, being sandwiched between such divine tits. You loosen your gait, and your pet wraps her paws around your stiff [pc.cock].

[pc.dcb|She's such a good slut|She's such a good girl], you think.

She works in tandem with you. After a while, you let her take control. You relax your [pc.arms] as she worships you. The frost puppy effortlessly squeezes and glides your [pc.cock] between her kneading breasts. She ensures each tit glides over your glands and makes your cock twitch. It's such a pleasant sensation to be worshipped and to be worked over by those blue marshmallows.

Soon enough, the puppy leans back as you straddle over her. She cranes her head back and offers her breasts as a slippery tit-fuckhole. You plant your [pc.hand] firmly around her neck, tugging on her collar. She swishes her tail playfully back and forth beneath her butt, which cushions her body.

You take control and use the giantess' tits for your own devices. Each thrust into her drool-strung funbags makes it even more pleasing. Your [pc.cock] twitches in anticipation of smearing your jizz on her and between her cleavage. Toes curling, your [pc.eyes] flutter as you hold back your climax. [pc.hasVagina| Drenched, every nub inside your cunt is slick with [pc.girlCum]. The frost puppy senses your intent and kneads her breasts into a taut hole.]

The sound of wet flesh clapping against your shaft echoes throughout the cavern. You buck and broach your dick further and further into her mounds. A dark sheen flushes across her face. Her cock drips a string of cum while she lays there, splayed. She's so cute the way she tugs and continues to spool out saliva to keep your cock wedged between her blue breasts.

After a short while, she's slamming her breasts down your length, trapping your rod in her crevice. You squeeze her breasts and pull on them. A low groan rolls up her throat and out her mouth. She looks ready to burst from you abusing her doughy titties. Your precum churns in your veins. With a few more wild thrusts, you spray your load into her cleavage. She traps your twitching cock inside her breasts. A[pc.cumVol 0 100 1000|spurt|solid slush|flood] of sticky white spill down her breasts. A [pc.cumVol 0 100 1000|smear|puddle|pool]of cum leaks onto her clavicle.

While you shudder out your last orgasm, she lets go of her breasts. Your jizz stains her nipples and the rest of her massive melons. With a last groan, you drip a drop of cum onto her mouth. She kisses your [pc.cock] and lays there. Her chest rises and falls while frosted fog leaves her mouth.

You stand over your puppy and wring out the last morsel of spunk for your doggie.

You caress her face and give her ear a good scratch. She hums at your touch and wraps her paws around your hand.

"Good girl."

You finish up.

Three Forms of a Dog

//Requires PC to have a cock.

//Tooltip:Take your puppy from intimate to rut with three faces of a dog.

This giantess is built to be tamed. From her perky ears to the delta basin that is her ass, you can see every inch of her sumptuous flesh she has to offer. What she lacks in one department, she makes up for in another. The need to make her kneel on all fours and prostrate herself before you leaves you [pc.dcb |feeling sadistic |feeling good].

You lift your puppy's leash and wrap it firmly around your palm. She glances down at you. You offer one word and one word only.

"Kneel." It comes out in a firm tone.

Your [pc.cock] throbs when you say it. [pc.hasVagina|Your pussy clenches tight when you say it.]

Your puppy doesn't slam herself like a wild wolf to the stone. The way you talk seems to affect her posture. Her tail straightens, her back arches, and her whole body splays before you. With her hands pressed in her lap, nestled above her flaccid shaft, she sits on her knees, awaiting your command.

You stroll behind her and another command slips from your [pc.lips]: "Prostrate before me. Spread your ass for me."

A sharp glimmer passes through the puppy's eyes. Her skin seems to flush. Her ears flatten. Her tail stops. She absorbs your every word with grace and subservience. She makes her prostration an art form. She swings her bottom wide so you can see every inch of her backside.

You tug at her leash, and she sighs. The frost giantess splays her backside out. Her arms rest out in front of her face, digging into the stone. Her tail lays on her left hip. Bent over, the frost puppy soon snakes her hands around her cheeks. You stare in anticipation. With a full parting, the frost giantess spreads her azure booty for you. She curls her back outward, so her buns stretch proudly for your display.

She glances at you from behind a strand of white lock. Her eyes are wet with desire and need.

You walk over to her and gather a fat roll of saliva. You spit on her ass and order her to lube her pucker with it. She lathers her fingers and begins to smear her ass with your drool. She rims and applies it over her doughy pucker. Your [pc.cock] swells at this lurid preparation. To assist her, you take off your [pc.gear] and rub your cock between her cheeks.

The puppy allows a chest-vibrating mewl as she soaps up your cock with graceful glides. Before long, slick with spit, you pop your [pc.cock] into her pucker. She winces and her ass clenches against your shaft. Leaning into her back, you knead her breasts and yearn to close the distance between the two of you. She turns her head and you interlock your [pc.lips] with hers. Close in heat and body, you meet her. She grinds; you thrusts in a slow tryst to build that intimacy between [pc.mistress] and submissive.

Her leash hangs freely as you command her body. She shifts and quirks her ass deeper along your length. In turn, you push inwards in smooth yet graceful hip gyrations. Each time you strike her ass, her asshole grips your veins, kissing and smothering with that tautness. It's enough to make you want to blow into her already.

You take your dog into the next state of dominance. Drawing back from your close embrace, you sink your [pc.hands] into her hips. This time, she relinquishes control. She pushes her cheeks deeper into your [pc.cock]. Taking that signal, you throw your weight into the giantess' pucker. Each time you hit her ass, a resounding echo claps through her gelatinous cheeks. She moans like a bitch in heat. Drunk on your control of her, you slap her cheeks each time back and forth until her skin's raw and a dark blue. The giantess rolls her tongue out and quakes with your beast-taming.

You dominate your lusty beast. Throwing your hips into her, her asshole loosens and stretches from each anal devastation. She drools and moans in the face of her sublime submission. Sweat cascades down your [pc.face]. She surrenders further into your embrace. Your [pc.cock] fills inside her anal cavity, splitting and bucking in a flurry of thundering hits.

When you smack her rawed ass, she lets out a high-pitched whine. Her tail swings and sways wildly in your rut. You feel your cock taut from the giantess' sphincter coiling around you. A spurt of precum leaks from your [pc.cock]'s head. The frost pupper squeezes you deeper into her so you're hilted in her ass.

Sheathed inside, you reach the final state of the beast taming. Your she-bitch lays still as you rut into her clapping cheeks. It's hard to breathe. Every broach into your puppy's asshole leaves you panting. She arches her back into your [pc.chest], submitting to your dominance. The way her anus milks and clenches around your cock leaves a pleasurable hollow in your heart.

You seize her hips and burrow as deep as your [pc.cock] can muster. What happens next is indescribable. Every inch of her giant ass sucks and slurps your bursting [pc.cumVol 0 100 1000|load| rope|typhon] of backed up cum. She yowls like a wild wolf, her blue tongue undulating in a whorish display. Her asshole clenches to the point you're stuck in her fleshy vice. It hurts to cum. Every part of you is milked by her bundle of nerves.

You feel like your soul is being sucked into her asshole. When you think that, you almost burst out in laughter. But your puppy claps her cheeks together to drain you dry. You're unable to escape her subservience. After ten minutes of being drained and dragged by her, you sprawl onto her back, exhausted.

The frost giantess doesn't let you go. She lays there and glances back at her. You return her glance and smile. She winks, and takes your hand back into her leash. You are her [pc.mistress] and she is your slave.

For that is the three faces of your beloved puppy.

After a time, you clean up and move on. But you can't wait to have another go with your giantess of a puppy.

She'll be waiting.
