

Canvas Changes Impact on FSSD

1/7/2025

What has changed in Canvas?

The screenshot shows the Canvas LMS interface for a course titled "NURS350-37_FA24". The page includes a sidebar with navigation links, a main content area with a course title and a "Pop" button, and a search bar at the bottom. A notification banner indicates a page change.

Status	Course	SIS ID	Term	Teacher	Sub-Account	Students
⊘	ADMN100-01_2252: Enrolled in Course Match	ADMN100-01_2252	2025 Spring		Registrar	6

- Four characters at end (e.g. FA24) could not be used as a result of switching from ODI to BOOMI for integration. Have to use term code (e.g. 2252).
- Previous terms are not changing; for 2244 and older terms, those are still going to be using the previous naming e.g. FA24
- Winter 2025 and going forward
- Code was developed at CO and was developed to be as generic as possible across all campuses
- Change has already gone to production in Canvas

Changes to logic for FSSD

- Do translation of term code to alternate and then possibly use OR code/logic
- We will have to see how that integration was implemented (was done by ThoughtFocus)
- Probably TF can do this as part of the support contract and shouldn't take a lot of hours

Communication to Faculty (CDW Updates blog post)

- An issue with Course Name Change in Canvas
 - Faculty will see data for prior term/courses

- Faculty will not see Canvas data for Winter/Spring 2025 going forward until the integration issue is fixed
- Separate Canvas issue with loads failing from Canvas 2 Extraction
 - Credential authentication problems
