

Active Gravitons

What is [Graviton](#)?

The Gravity Working Group is a collective that aims to bring people together and promote resilience in decentralized organizations by training its members in non-violent communication, understanding and analyzing conflict and techniques to manage it (internally, individually and collectively). The mission is to help build a culture of wellbeing and high vibes, while also pointing out clear steps to strategically manage disputes whenever they arise.

To define: Participating in a community

Working in teams

2 active gravitons per community - or 1 champion and a backup.

Championing efforts. Backup plans

Job responsibilities

- Be a point of contact for reporting issues in the TEC and related communities.
- Gather information to develop cases and activities.
- Help to facilitate mediations or delegate cases to other Gravitons.
- Provide inter-Graviton support.
- Promote narrative and communication strategies for Gravity
- Foster Gravity from their active participation in other Working groups/projects or DAOs.
- Follow up for cases that are “active” or “in observation” on the zenhub board
- Participate in Gravity weekly coordination call, supporting overall activities and operations
