

ACADEMIC PROFILE OF DR. ANNE ADEYANJU

ACADEMIC QUALIFICATIONS

M.Sc. Bioethics (University of Ibadan)- January 2023 to date

Doctor of Philosophy (Biochemistry, University of Ibadan)- 2013

Masters of Science (B.Sc. Biochemistry, University of Ilorin)- 2006

Bachelor of Science (B.Sc. Biochemistry, University of Ilorin)- 2001

PROFESSIONAL AFFILIATION

(i)Member of Nigerian Young Academy

(ii) Fellow Nigeria Science Leadership Programme

(ii)Member of Society of Toxicology, USA

(iii)Member, Genetic Toxicology Association of Nigeria (GTAN)

DISTINCTIONS AND AWARDS

i.University of Ibadan Postgraduate Award for Ph.D Students: 2010-2013

SCHOLARSHIPS/GRANTS

i Scholarship for Master's in Responsible Conduct of Research (NIH grant administered by Bioethics Research Center, Nigeria)

NUMBER OF PUBLICATIONS: 34

CONTRIBUTIONS TO KNOWLEDGE

I have a keen interest in advancing science and sustainable development. In March 2022, I organized the first Conference titled “Emerging Research in Science and Technology for Health and Sustainable Development” for my Faculty. The conference which was widely attended physically and virtually stressed the need for the development of science and technology to solve national issues and achieve sustainability. I used the avenue to expose our undergraduate students to scientific presentations and widen their STEM knowledge as they meet renowned speakers. In July 2022, I organized a hands-on training in Molecular Biology Techniques for the Staff and students to enhance their knowledge and operational skills in Molecular and Genetic Engineering

required in Biological Sciences. The opportunity was extended to colleagues and scientists from other Universities interested in improving themselves in this regard.

CONTRIBUTIONS TO THE COMMUNITY, NATION AND THE WORLD

My contribution to the community involves a free medical outreach to local communities in Ibadan where health talk is delivered and drugs distributed. This is done quarterly. My focus has been on Okekoto community in Ibadan where several health talks and free drug distribution had taken place.
