November 13, 2018

Dear SHS Graduates,

Smithfield High School is proud and excited to once again invite recent SHS graduates to the fourth annual Alumni Day, which is a great experience for the speakers, the students, and the staff at SHS.

The Alumni Project provides an opportunity for recent SHS graduates to share their experiences in life after high school with our current seniors. Participants share insightful information in a panel discussion with seniors who are all preparing to make major decisions about life after graduation. We look forward to hearing about your experiences entering the workforce, joining the military, and attending various schools. We hope our seniors can learn from the challenges you have faced, whether you have been hired, fired, promoted, survived basic training, transferred schools, changed majors, left school, or graduated. What kind of obstacles have you encountered? What have you learned through these experiences that you can share with our seniors?

**Alumni Day will be on Thursday, December 20, 2018, 8-10 AM at the high school.**

**There will be an optional meet-and-greet session from 10:00-10:30.** SHS graduates who are interested should complete the attached [Google Form](#). We hope to see participants from last year in addition to other recent graduates. We look forward to seeing some familiar faces back in our school for this exciting and important day!

Sincerely,

*Christina M. Paesano-Gliottone*
