

THE NEXT THRESHOLD PODCAST

Purpose

Creating a short podcast will allow you to show your knowledge and share your reasoning for what you think the next threshold will be.

Process

1. Using your Threshold 9 Card, create an outline for your podcast script by completing the table below.

Question	Response (write two or three sentences for each question)
How would you introduce your threshold in an exciting way?	
Why do you think your threshold is important?	
What makes your threshold more complex than Threshold 8: The Modern Revolution?	
What evidence or signs do we see today that your threshold could happen?	

THE NEXT THRESHOLD PODCAST

2. Now, use your responses from the table above to write a short script for a three- to five-minute podcast. Think about how many participants you want to include in your podcast and what each person might say in response to each of the questions in the table above.
