Math Nation is an online support system in Math that meets your child on his/her own time in a familiar, comfortable pressure free environment. **Math Nation** is available online, on iPhones, Android phones, and iPads.

- Highly interactive and fun videos help your child review the material they learn in the classroom, after school or on the weekends.
- Study guide packets come with every video. Your child can print out study guides and use them to follow along with the videos.
- The “Test Yourself!” practice tool after each section allows your student to check if s/he understood the material. The “Test Yourself!” section will also help your child get comfortable with computer-based testing. The results page will not only show which problems your child got right or wrong, but will also feature videos that break down how to solve each problem.
- Each subject has its own discussion wall, an interactive discussion forum where students can ask and answer questions anytime about the material.
- Study Experts and teachers answer questions and read every thread to ensure the accuracy of peer replies. All Study Experts and teachers have been thoroughly vetted and are highly trained.

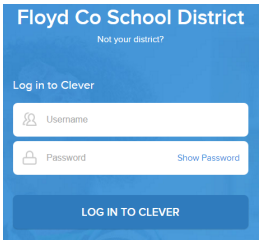

To get started, please follow the directions below. You can also access videos, study guides, and the discussion walls on our free smartphone apps. Download the iPhone and Android apps by searching for ‘Math Nation’ in your smartphone’s app store.

MATH Nation Directions

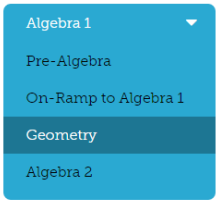

Step 1: Go to from the Parent/Student resource area Math Tutor with the link for MATH nation

Math Nation Resource LINK or use the link https://tinyurl.com/floydclever to access the login page

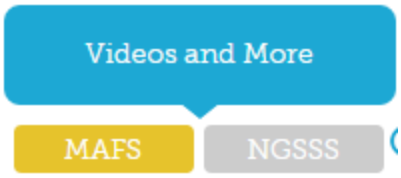

Step 2: login with username as your **lunch number** and password as **Study followed by lunch number.** **For example, Study12345**

Step 3: Look for a drop down menu at the far left top corner of the screen: And select your course

Step 4: Access the folder/activity as assigned by your teacher or use the “Videos and More” drop down tab to access folders that have videos and lessons by topic

NOTE: stay with (or select) the YELLOW MAFS standards tab unless your teacher tells you otherwise.

For every folder/unit there is a **printable study guide** with **notes** to help you work through the lessons with the Math Expert from Math Nation

Step 5: Use the **“test yourself”** option to see how well you mastered the content in the folder you selected.

If you need more help on a test yourself item, you can watch a solution video and try the test yourself quiz again. **You can practice each topic as much as you like!**

- **Ask your teacher for the topics on Math Nation that you need to review. They can help you find the best section to review.**
