TomKatCenter FOR SUSTAINABLE ENERGY

This form is your formal request to your departmental/program advisor for permission to apply for an internal fellowship. Securing departmental/program approval is a required part of your proposal for a TomKat Graduate Fellowship.

These fellowships are designed to provide full support to Stanford doctoral students performing translational sustainability research for up to two years. If awarded, the student will be assigned a TomKat fellowship PTA, and their fellowship expenses will be charged directly to that PTA. These awards are designed to cover stipends, tuition, and $5k in research funding. TomKat will make its awards based on proposed activities and budgets.

TomKat awards are contingent upon students remaining in good academic standing and making adequate progress toward their degree. Any activities using TomKat funding must adhere to Stanford's Student Conduct Charter and Honor Code.

This form confirms:

* Your department/program is aware of and supports your application.
* You are in good academic standing.
