

melanie@you thought lol

Hi Melanie

It's cool how you're the only cpa in pine bush who has completed the AFSP. Most people who try doing taxes themselves usually end up looking like Lisa.

I was looking at one of the top CPA firms in New York City, (George Dimov firm)

George Dimov's firm gets more leads when they post ads in local facebook groups rather than normal posts.

I've made you a Facebook caption you could use inside orange county groups to get you more leads from individuals.

I've attached it below.

Reply back if you think I've matched the voice of Pine Bush Accounting.

Best wishes,

Chris.

Are you tired of banging your head against the wall looking for an honest accountant?

You see, most accounts cut corners when it comes to Filing YOUR VERY OWN taxes and in some cases commit fraud.

Causing you to get thousands of dollars in penalties & the I.R.S. taking your hard earned money from your bank account.

We want to give you the correct information you need when its time to do your taxes.

Watch our latest video to see how you get double the amount back from the I.R.S. without any fraud or scams.

(insert a video of you explaining how they can get more money back when they are filing taxes.
)
