Notes
- Javascript thingies
  - Arrow functions
    - ES6+
    - Const funcName = (params) => {
            Function body
      }
    - Function funcName(params) {
            Function body
      }
    - function(param , callback)
  - Async / await + promises
    - Fetching api
- React resources
  - https://www.youtube.com/@WebDevJunkie
  - Codepen resources

-

For next meeting → next fri 12/9 2pm
- Lee
  - Get register/login functionality
  - Next-auth research
  - Social website
    - Google
    - discord
    - Twitter
  - Start frontend work based off of preliminary wireframes
  - Respond to comments on figma wireframes

    -

- Lindsey
  - figma wire frames: https://www.figma.com/file/cUuW7ieBTjxstr4eQa7KrD/Low-Fidelity-Wireframe?node-id=0%3A1&t=dRXY7QoeINqLBOrz-1
  - to do:
    - rework wireframes with schedule → events notation/grouping
      - check in with lee
      - finalize clickable prototype
    - create discussion guide for user testing
