

Welcome to modern-day Teyvat!

Hello, traveler! Thank you so much for expressing your interest in the Daybreak: A Modern AU Genshin Fanzine. We can't wait to explore Teyvat with you!

Daybreak: A Modern AU
Daybreak (n.) — the time in the morning when daylight first appears

Like Volume 1, the zine will still be a Modern AU wherein contributors will be depicting our beloved characters in a modern day setting separate from the current in-game universe. The zine will give everyone a glimpse at the daily lives of the Genshin Impact characters at school, at work, or at home—no visions, monsters, or magic involved!

- This zine is strictly SFW and for-profit. Contributors who wish to donate their earnings from the zine may choose to do so on their own preferred charity.
