

## SUPPLEMENTAL EXPERIENCE

### Title: Movement in Nature

Learning Objective: Explore and appreciate the natural world. See movement in nature and learn more about that movement/animal/tree/plant through identifying the movement and trying it on their own bodies.

Essential Skill:

### Colorado Academic Standards - Dance Codes

GR1.1.1

GR1.2.1

GR2.4.1

GR3.2.1

GR5.2.1

Parent Unit Title:

Parent Lesson Title:

Length:

Where in parent lesson will activity take place:

Items Needed/Props: None

### Task/Activity

**Either look outside or take a walk outside your classroom.**

**Observe what is moving and how.**

**Copy the movements on your own body.**

**Explore different ways to change the movement, (size, speed, with a partner?)**

**Further development:** Have students draw what they see in a journal. Write a descriptive narrative about their experience using movement vocabulary.
