

KazultheDragon's Terms of Service

for World of Lingua official artist customs and redesigns

Last updated: 06FEB2025

By commissioning me, the artist, you, the client, are agreeing to these terms:

Content

- Clients must be 18 years or older. The artist will not accept commissions from minors.
- The artist has the right to decline any commission.
- The artist is most adept at drawing quad animals. See Restrictions section for full list of subjects the artist will not draw.
- The artist requires at least a partial visual reference to work off of. The artist will accept a written description paired with a visual reference, such as search engine image examples for an idea of color and design. The artist will not accept written descriptions alone.
- The artist will send screenshots at each stage of the process for approval (sketch, lines, color, shading). This ensures that the client and the artist are on the same track and that the end product is satisfactory to the client.
- Minor edits are free of charge until commission completion. Major linework edits after sketch approval and any edits post-completion are subject to additional fees.
- Please note the artist draws on smaller canvases than other artists. Most of the artist's work displayed on Twitter/Bluesky/Toyhouse is at its highest resolution.
 - The client may request specific dimensions, if desired.
- The client will receive a full resolution, transparent background version(s) of the completed commission.

Usage

- The client may use the completed work as official World of Lingua masterlist entry artwork.
- The client may use the completed work for avatars, banners, backgrounds, etc. or repost in their own gallery with credit given.
- The client may not sell the commission for a higher price than originally bought.
- The client may not use the commission for commercial purposes unless explicit permission is given.
- The artist has the right to post the completed piece in my gallery. If the client wishes, the artist can postpone the upload until after a certain date.
- The client may not mint the commission as an NFT or sell for cryptocurrency.
- The client may not submit the commission to an AI generator.

Payment

- Payment is in USD, charged via Paypal invoice.
- Commissions must be paid in full once a sketch has been produced. The artist will not proceed past the sketching stage until payment is received.
- The artist currently does not take payment plans.
- The client may cancel the commission at any time prior to completion. Refunds issued will be the total agreed price minus the amount of work completed.
- In the event that the artist must cancel the commission, the client will receive a full refund.

Restrictions

- The artist will NOT draw the following:
 - Hateful material
 - Cultural appropriation
 - Police/Military/Government-related subjects
 - NSFW content, including fetishes and pornography. *Mild gore is OK.*
