## Disability Self-Identification Form

*Hold on deployment per demo discussion*

We have **updated the header, questions, options, and footer in the Voluntary Self-Identification of Disability** section on the demographic survey to reflect the recent Office of Federal Contract Compliance Programs (OFCCP) changes for the Disability Self-Identification form.

Voluntary Self-Identification of Disability Form CC-305 • OMB Control Number 1250-0005 • Expires 5/31/2023

Why are you being asked to complete this form?

We are a federal contractor or subcontractor required by law to provide equal employment opportunity to qualified people with disabilities. We are also required to measure our progress toward having at least 7% of our workforce be individuals with disabilities. To do this, we must ask applicants and employees if they have a disability or have ever had a disability. Because a person may become disabled at any time, we ask all of our employees to update their information at least every five years.

Identifying yourself as an individual with a disability is voluntary, and we hope that you will choose to do so. Your answer will be maintained confidentially and not be seen by selecting officials or anyone else involved in making personnel decisions. Completing the form will not negatively impact you in any way, regardless of whether you have self-identified in the past. For more information about this form or the equal employment obligations of federal contractors under Section 503 of the Rehabilitation Act, visit the U.S. Department of Labor's Office of Federal Contract Compliance Programs (OFCCP) website at [www.dol.gov/ofccp](http://www.dol.gov/ofccp).

How do you know if you have a disability?

## Speedup of review process

The **activity log on the application hoverboard** will display the log entries within a new pop-up view. In addition, we **added the Search field** so a user can search for a particular entry.

## Bugs & stuff

- We fixed an issue with the Personal Note on the new application popup review window so that it displays properly after being added/edited.
- We also resolved an issue where adding/editing Public comments on the new application popup view was not updating the corresponding column in the background on the Applicant grid.
- There was an issue with the "Download names & addresses" CSV download and this has been resolved so the information displays correctly on the CSV file.
