

AI Product Page Builder Prompt

Build a Complete Shopify Product Page in Minutes with ChatGPT

Use this prompt to instantly generate a compelling product page that hooks visitors, builds trust, and converts, no copywriting experience needed.

The Prompt:

“Write a full Shopify product page for [insert product name]. Include: 1) a short headline, 2) a persuasive subheadline, 3) 3–5 bullet-point benefits, 4) a short emotional product description (under 150 words), and 5) a call to action. Tone should be confident, beginner-friendly, and optimized for mobile shoppers. The target audience is [insert audience type].”

How to Use It:

1. Replace **[insert product name]** and **[insert audience type]** with your actual product and target customer.
 2. Run the prompt in ChatGPT (free or Pro).
 3. Copy + paste the result into your Shopify product page.
 4. Optional: Tweak tone or add a short FAQ section.
