Quests:

1st quest gives up empty pizza crust cape, where we can add toppings later on (bought from Pizza Delivery Guy)

Baker is seen being sad, the skykid approaches him and he asks for help from the skykid to make pizza, it prompts you to find pizza crust and other ingredients and give them back to the Baker, it ends with a cutscene of the skykid succeeding at the pizza making

2nd quest gives new transportation up to the pizza area without asking the pizzaman

This quest starts with the baker asking you to deliver 5 pizza boxes to customers standing around the seasonal area, and ends with a normal "yay we did it" cutscene

3rd quest starts with a customer spirit complaining about their store, and the baker prompts the skykid to make a pizza for them

After this quest, the customer tastes the pizza, faints, and the camera pans to the Bread Apprentice, with Dark plants in his hand and giggling, the Baker and the Boss face palm as the cutscene ends

4th quest starts with spirits talking amongst themselves about a rumor that the pizza place poisons its customers, the skykid has to take some bread and pizza samples and give it to the spirits to try

It ends with the rumor slowly dying as sales peak at the store

2nd to last quest involves warding krills away from the pizza area
