Discussion Questions:

1. 30 million Bible believing Christians did not vote last election. What does this tell you about the value of our votes as Christians? Does this challenge you to engage and not be passive?
2. How can you "do God and do good" in the weeks leading up to the election? Where can you be a light that points to Jesus?
3. Pastor Rob gave a list of important factors to consider. Are any of these topics new to you? Have you used guidelines similar to this to navigate previous elections?
4. Prayer is necessary for our leaders in all seasons, but especially in the face of an election. Take some extra time to pray as a group for our leaders and for unity and peace in our country.
