Unveiled

The Complete Collection Unveiled for the Last Time (for its last showing)

Friday, October 10th and Saturday, October 11th from 12-4 pm.

This 2 Day Only Event is Free and Open To The Public. Refreshments will be served.

This will be the last time this entire collection will be out on display together. So, let's celebrate 60 years of work by Susanne and John Stephenson at the site it was created. At this event the ENTIRE collection will be brought out and displayed throughout the studio, gallery and sculpture garden across a festival of tables and tents. The gallery will feature *Intertwined*, a metals and fibers exhibit of works by Guest Artists, Dennis Nahabetian and Katie Shulman, who will both be present for a meet & greet Saturday, October 11th at 2pm.

Celebration ~ Artwork ~ History ~ Refreshments

Susanne and John Stephenson are internationally renowned for their excellence in ceramics. They shared a remarkable life together, traveling the world, creating art, and inspiring others through their teaching. Often referred to as the "dynamic duo of ceramics," their contributions to the medium are still being felt across the globe today. We have been hard at work, unboxing, unearthing and cataloging ceramics from as far back as 1960, so join us October 10th and 11th to explore, discover, and celebrate their work.

The property of Susanne and John Stephenson will come alive with art enthusiasts, friends, family, and curious visitors for a 2-day art immersion! This is more than just an event, it will be the last time the entire collection will be in one place, transporting you through decades of work. Artwork by John and Susanne will be curated into the 3 acre landscape for a 2 day art extravaganza. This event will feature historic works by John and Susanne, from John's unique sculptural forms and augers to Susanne's gestural vases, bowls, and wall plates that blur the line between sculpture and function.

At this event, whether you have visited before or this is your first time, we invite you in to explore this one of a kind space where the artwork is interconnected in the location it was made, tying artistry, history, and passion together. One first time visitor reflected on their experience: "Their work displays emotions and passions in a most organic way. We left awestruck."

All artwork is available for purchase.
