

Embedding a JavaScript on WordPress

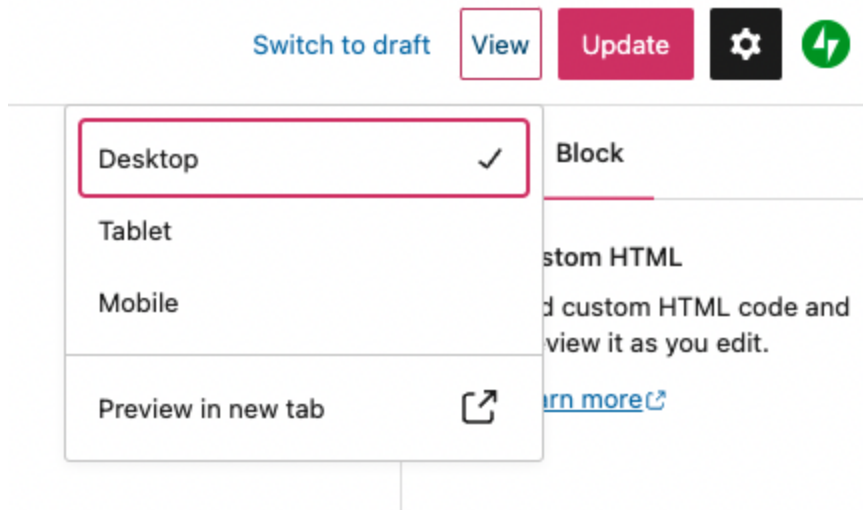

1. Open the page on your site that you would like to add your listings to.
2. Insert the custom HTML block on your webpage wherever you would like your listings to appear.

3. Paste the code snippet provided by ClearCompany into the custom HTML block.

4. Use the view option to preview your changes to make sure everything looks correct.

5. Save your webpage.

Troubleshooting

1. If you do not have the option to add custom HTML to your website, you may need to install the Simple Custom CSS and JS plugin.
