- ø Admissions Application Process
- ø Tuition and Financial Aid
- ø Short-term Training (30 weeks)
- ø Hands-on Activities
- ø Employment Assistance and Placement Rates

Begin your path to a degree in **Aviation Maintenance Technology** while you are still in high school! Introducing the Aviation Maintenance Technology (AMT) “Choose Aerospace” Pathways Program.

What is the AMT Pathways Program? Cape Cod Community College is home to the region’s premiere education and training program for Aviation Maintenance Technology (AMT). With three hangars filled with real aircraft located at Plymouth Municipal Airport, our program has been building aviation careers for students since 2017, sending dozens of graduates into rewarding, powerful careers. With a need at both the local and national level for AMT professionals on the rise, we’re taking our program online so that we can partner with area high schools to create a seamless Pathways program, allowing your students to start training while still in high school. 4C’s has partnered with the Aviation Technical Education Council (ATEC) to build a two-year program designed for high school students which mirrors the current 4C’s current AMT program.

Students in this Program take their courses online, remotely, and through our state-of-the-art “hyflex” model, which allows them freedom to learn under the watchful eye of an FAA Certified

Instructor, including weekly check-ins, reviews and learning opportunities with an additional on-campus lab component scheduled monthly.

**Program Cost with Scholarship: Two-year/module program, \$250 per year/module.**

Scholarships are need-based. If a student is not in need of a scholarship, the program cost is \$1,275 per year/module. Year One/Module One Program Start Dates: Fall 2023 Year

Two/Module Two Program Start Dates: Fall 2024

Please call David Ricci at 774-994-0197 for more details and campus tour dates.

Please complete [this form](#) if you are interested in learning more about any of the **ProArts member schools** ([Berklee College of Music](#), [Boston Architectural College](#), [Boston Conservatory at Berklee](#), [Emerson College](#), [Massachusetts College of Art and Design](#), [New England Conservatory](#), and [School of the Museum of Fine Arts at Tufts University](#)). **Worcester Polytechnic Institute** is offering pre-college STEM **summer** programs. In each program, students learn from a dedicated team of outstanding WPI faculty, using state-of-the-art experimental, analytical, and computer technology. Students will be challenged to explore their passions in a hands-on environment. For more information visit their website:

[www.wpi.edu/+summer](http://www.wpi.edu/+summer)

**Montserrat College of Art** offers a three-week residential pre-college summer program for high school students (16+). Spend July immersing yourself in a creative environment just three blocks from the ocean with other young artists from across the country. Students take three studio classes and can earn three college credits for the program and receive evaluations from each instructor. For more information visit [www.Montserrat.edu/pre-college](http://www.Montserrat.edu/pre-college) Payment deadline June 16, 2023.

**Stanford University Summer Mentorship Program 2023** for students in grades 6-12.

Organized by Stanford University undergraduate and graduate students, Qualia Global Scholars is a selective pre-collegiate virtual summer mentorship program matching talented students in grades 6-12 with Stanford mentors. The program features personalized mentorship, interdisciplinary research, project-based learning, and guidance on college applications. The program aims to empower students to become future global leaders by teaching them about leadership & problem solving, emerging areas in STEM & liberal arts, critical thinking & communication skills, and real-world impact through research & innovation. Applications are reviewed on a rolling basis. Need-based financial aid is available for the program. Click [here](#) to apply.

Pre-College at **Syracuse University** - Experience college as a high school student this **summer!** For more than 60 years, Syracuse University's Office of Pre-College Programs has been giving high school students the opportunity to explore potential college majors and careers in its renowned pre-college programs. Students not only learn about what it's like to be a college student, they leave the program with more confidence, enthusiasm and a sense of being ready for college. Students can choose from over 100 courses in one of our six pre-college programs. Learn more: [www.precollege.syr.edu](http://www.precollege.syr.edu)

**Adelphi University's** Summer Pre-College Program will take place July 9-29, 2023.

Adelphi's Summer Pre-College Program is open to rising juniors and seniors in high school. Our summer program for high schoolers features an updated curriculum that will allow students to explore an academic area of interest, participate in college preparedness workshops, and discover all that Adelphi University has to offer. Credit-bearing options are available. Explore our program pages to [find the right option for you](#).

Experience Adelphi's personalized approach to education and enroll in our Summer Pre-College programs, which includes residential, credit-bearing experiences on our Garden City campus. College Consensus recently ranked Adelphi's Pre-College Summer Programs among the [top 30 in the US](#), and here's why:

- You can live on our beautiful flagship Garden City campus and take a class in the kind of exciting, challenging subject you dream about.

- You will work with our professors and instructors, and meet with experts in the field.

- You will go on exciting off-campus trips.

If you choose a credit-bearing summer program, you will walk away with three transferable college credits. It's a great introduction to the hands-on, high-impact learning at Adelphi – and an unforgettable growing experience.

Find out [how to apply](#) and become involved in this unique, life changing opportunity to learn and grow!
