

CLIFFORD ANANG

anangclifford@gmail.com | [+233593811490](tel:+233593811490) | <https://cliffordanang.com>

SKILLS

- **Languages:** TypeScript, JavaScript, C#, SQL
- **Frameworks/Libraries:** Angular, React/NextJS, ASP.NET Core
- **Cloud/DevOps/Tools:** Azure, AWS, GCP, Firebase, Git/GitHub/GitLab, Microservices, REST API, WebRTC, SSO, Twilio, Paystack

EXPERIENCE

Accede | Software Engineer | Accra, Ghana | Jan 2020 – Present

- Led frontend development across sectors (fintech, legal tech, edtech, health), delivering scalable, user-focused interfaces utilizing Angular and ReactJS.
- Engineered and maintained robust admin control features to ensure efficient user management and streamlined operational workflows across multiple platforms.
- Integrated secure technologies (SSO, WebRTC) and collaborated with backend teams to enforce best practices for data protection and platform security, ensuring compliance and reliable service delivery.
- Applied DevOps principles and cross-platform optimization, leveraging Azure, Firebase, Git, and Netlify for efficient deployment and platform reliability.

PROJECTS

Piver (Feb 2025 - Sept 2025)

- Integrated Twilio-powered chat and push/in-app notifications to significantly improve engagement and responsiveness between consignors and admins.
- Developed quotation management endpoints to facilitate flexible negotiation, enhancing pricing efficiency and reducing manual overhead (C#, ASP.NET, Microservices).

M-Chudo (Jan 2025 - Sept 2025)

- Designed and implemented admin lifecycle management and role-based access controls to strengthen platform governance.
- Built tenant and subscription management features, streamlining onboarding and billing processes for improved operational efficiency (Typescript, Angular).

Trybz (Jan 2023 - Dec 2024)

- Utilized ReactJS to implement sophisticated admin control features; strictly enforced industry best practices and security standards to guarantee user data protection and foster community trust.

IMS - Installment Management System

- Developed the system from scratch (Angular, ASP.NET Core); integrated Hangfire, Hubtel (SMS), and Paystack to automate notifications and payment collection.
- Designed and implemented admin dashboards with business metrics to flag due/defaulted payments, enhancing decision-making and payment tracking.

MyTRN (Feb 2019 - Dec 2021)

- Led frontend team to implement robust admin features; spearheaded WebRTC integration to facilitate crucial real-time communication, enhancing healthcare provider efficiency (Angular, TypeScript, Twilio).

CERTIFICATIONS

- [Google Cloud Fundamentals: Core Infrastructure](#) - Google Cloud.
- [DevOps and AI on AWS: Upgrading Apps with Generative AI](#) - Amazon Web Services.
- [Microsoft Certified: Azure Developer Associate](#) - Microsoft.
