Meeting Agenda March 5th

1. Last Weekend of Regionals! Please be in the MS teams meeting at the following times
    a. If you have a first block event you need to join the MS teams meeting by **8:50** so I can sort you into breakout rooms
    b. If you have a second block event You need to join by **10:10** am
    c. If you have a third block event you need to join by **11:20**
        i. DON"T forget this is at your own home!
2. This is the Spreadsheet you need to reference for this weekend's event codes. It is specific for the Charlotte regionals.
    a. https://docs.google.com/spreadsheets/d/15iSKOYJ2mgukeJ7YjigGCOSREbqmLAvYX0-b_ZGLCjA/edit?usp=sharing
3. Event Updates from NCSO
    a. **Protein Modeling** - articles needed are in your regional spreadsheet, you must be able to access the online version of Jmol - test that out now: https://cbm.msoe.edu/markMyweb/jmolDesignEnvironment/#forward. To clarify - unlimited resources on the test, but having looked at these articles in advance will be helpful.
    b. **Picture This/Mystery Architecture** - I will message the zoom links for this event Saturday morning to you through the chat feature on MS teams.
    c. **Nearpod/google form events**: Remember when it asks for your name to put the school and the team (varsity, JV1, JV2)
    d. **Codebusters**: Please, as the students cram in last minute practice, have them watch this youtube video on how to set up an online test. Then use one that is a practice test on the front page of the website (scroll down a bit) and see what this looks like before Saturday.
        i. Please check that you can log into the website using your email (this will either be your person gmail if you had submitted that on the emergency contact form or your school email). If there is an issue I need to know today so we can try to get this fixed. They will not create an account for you tomorrow.
            1. http://toebes.com/codebusters
        ii. Baconian, Morbit & Pollux – only put one letter underneath the entire sequence of code that corresponds. See the front page of the Codebusters site for an example. We highly encourage that the team has a way to talk to each other verbally. Has your team tried logging in and taking an online test? If not, could you please try that out ASAP? If your emails don't work, I am not promising a magic fix on Saturday, but I can fix it without magic on Wednesday.
4. The **Awards Ceremony** is scheduled for **March 12, 2021 at 7 pm**.
