## Summary:

Professional web developer with more than 9 years of commercial experience. During web development, I've been working with various platforms, frameworks, and content management systems. I've developed many fast and responsive websites and web applications with complex UI. I have experience with coaching newcomers.  
I am a solution-driven developer with a keen eye for details. I comfortably work as an individual and as a part of a team.  
Easily communicating directly with English-speaking customers.
