The soccer field rang with applause for me

All of my hard work dedication and application was  
recognised

For too long I was mediocre not knowing how to  
change and what changes to make

Struggling for minutes “Benchwarmer” “Waterboy”  
my teammates would taunt

Fast forward 30 days and it's me they want on the  
ball in the dying moments

I stand before them with the player of the  
tournament award and a number 8 jersey i have  
solidified as my own

In just 30 days I applied the seven secret principles that took me from “waterboy” to a “midfield maestro”

This is not for the lighthearted but for the grafters it will take dedication hard work and commitment to the cause.
