Angmar

1. Unique under leadership title means that only one person in the faction at a time can hold that title
 2. In any title, except for leadership titles, (e.g. [Sorcerer of Angmar]) can have the "of Angmar" replaced with the name of a staff approved siege build owned or resided in by the player(e.g. [Sorcerer of Carn Dum])
 3. Because Assassin tree players may not wish to make a siege approved build, if they reside in an approved siege build, they may take the name of that build for their title.
 4. Build names are non-unique in titles, so multiple players may share a single build name in their tags
 5. Secure player home is unable to be broken into, Aesthetic Base looks good not necessarily secure. Siege Build is large, aesthetic, secure, and meets server reqs.
 6. **Note to staff:** This document exists so that I don't have to approve everything
- Non-tree specific leadership role: [Lieutenant of Carn Dum], is 2nd in command of faction, and the only requirements for that tag are set by TWK
