

Social Justice – Government AI-based surveillance

1949, George Orwell's **1984** published Big Brother := government censorship, totalitarianism, surveillance

Privacy Act of 1974; laws protecting individuals from the collection, use, and disclosure of personal information by government agencies using information silos and other techniques

March 20, 2025 Executive Order 14158, “**Stopping Waste, Fraud, and Abuse by Eliminating Information Silos**”

Elon Musk, Peter Thiel, Alex Karp

01/20/2025 Executive Order 14243, **DOGE replaces United States Digital Service** (established during the Obama administration to deliver government services through technology)

Palantir engineers embedded in DOGE teams

Palantir (the all-seeing crystal balls used by Sauron's forces in Lord of the Rings) PLTR

1200 17th Street Floor 15

\$113M to date from Trump administration

2005 CIA contract, data integration and AI analysis, developed into **Palantir Foundry** product (data integration, analytics, decision making)

- Department of Veteran Affairs, Foundry installed (\$90 million, 4 year contract)
- Department of Homeland Security, Foundry installed - Health and Human Services Department, Foundry installed
- Centers for Disease Control and Prevention, Foundry installed - Federal Aviation Administration, Foundry installed
- Federal Emergency Management Agency
- National Institute of Health and Human Services, Foundry planned
- Food and Drug Administration, Foundry planned - Social Security Administration, Foundry planned (6/17/2025 Supreme Court allows DOGE data access)
- Department of Education, Foundry planned
- Internal Revenue Service, Foundry planned - Department of Defense (\$795M), Gotham (since 2008), Palantir Maven Smart System (\$480M) and Foundry planned

ICE (beginning in 2011)

Palantir Investigative Case Management (2014) analyzes massive amounts of data on undocumented migrants from various federal and private law enforcement agencies, creating extremely detailed files that are used to craft deportation cases on individuals, and locate them for arrest and detention

Palantir ImmigrationOS (\$30M contract) real-time AI immigrant tracking and surveillance

Palantir Gotham & Palantir Maven Smart System defense, intelligence, law enforcement
US Navy (\$1 billion contract)

NATO AI battlefield command system

Ukraine AI autonomous kill systems

Israel Defense Forces

Mayo clinic Foundry British Nation Health Service Foundry United Nations World Food Program Foundry

GROK := generative AI chatbot agent developed by Elon Musk's xAI company GROK4
conservative LLM bias?

Large Language Model (LLM) := knowledge base or database or neural network used by generative AI agents; objectivity is the goal, but training can introduce bias

Mitigate misinformation: snopes.com:= gold standard fact checker

allsides.com/media-bias/media-bias-chart:= popular news service political leanings chart
