### EXPERIENCE

#### UTG Media

Nov 2022 – Present  
Dallas, TX

##### *No-Code Developer, AI Integration Specialist*

- Architect and deploy AI-driven automation solutions for SMBs and enterprise clients.
- Automated sales pipelines using Airtable, Make, and ZohoCRM, increased booking 19.3 calls monthly.
- Deployed OpenAI & Claude AI agents to manage business processes, reducing manual tasks by 40%
- Partnered with Fortezza a fintech company to automate CRM, boosting investor activity by 30%.
- Partnered with Goldman Sachs CISO to create a prototype inventory management agent using prompt chaining and structured data ingestion.
- Sourced, evaluated, and onboarded top no-code and software talent; built and maintained pipelines via LinkedIn, GitHub, and AI-driven tools; mentored hiring managers on evaluating technical talent.
- Built and maintained pipelines of high-quality candidates via LinkedIn, GitHub, portfolio reviews, and AI-driven sourcing tools.
- Mentored technical recruiters and hiring managers on evaluating AI and no-code engineering talent,

#### AAFES- Army & Air Force Exchange Service, Department of Defense

Nov 2022 – Present  
Dallas, TX

##### *Data Security Analyst, Intrusion Detection & Prevention - Firewall Security*

- Monitored and analyzed Cisco FMC security logs to identify and respond to security incidents, documenting incidents and remediation steps in ServiceNow for streamlined tracking and resolution.
- Experienced in configuring Cisco ASA Firewalls & Scripting within the CLI and SSH.
- Ensured secure and reliable network operations by designing, implementing, and maintaining computer networks and firewall technologies internationally around every Army and Air Force database worldwide.

#### Purvis Industries

June 2022 – July 2022  
Dallas, TX

##### *Tech Support - Contract*

- Built and configured PCs, laptops, printers, and VPNs, managed IT requests and applications, and resolved hardware/software issues, improving uptime and productivity.
- 

### Education

#### Bachelor of Computer Information Systems

Fall 2018 – Spring 2022

The University of Texas at Tyler, *Soules College of Business, Tyler*

- Presidential Fellowship (Full-ride academic scholarship) & Cybersecurity Certification
- 

### Key Projects:

#### Goldman Sachs – AI Automation for Inventory Management

- Led the design and implementation of AI-driven automation agents leveraging OpenAI and Claude to optimize inventory workflows, reducing manual tracking efforts by 40%.
- Built experimental prompt chains and multi-agent workflows to monitor and predict inventory needs, integrating structured data pipelines from internal systems.
